1. INTRODUCTION

This manual provides detailed and easy-to-follow instructions on how to use the Municipal Payment Portal for Accountants effectively.

It is created to guide accountants in navigating the system, reviewing treasurers' reports, verifying collections, and maintaining financial accuracy across all municipal transactions.

1.1 System Overview

The **Municipal Payment Collection System** is a web-based platform developed for the Municipality of Santa Maria, Laguna.

It automates the process of collecting, recording, and managing payments between the Treasurer's and Accounting Offices.

The **Accountant Module** allows authorized users to:

- Review submitted reports from treasurers
 - Approve, reject, or return financial reports
 - View and track total municipal revenue
 - Generate verified financial summaries
 - Maintain data accuracy through secure record tracking
-

1.2 Purpose of the Manual

This manual serves as a guide for **Municipal Accountants** on how to use the **Accountant Module** of the Municipal Payment Portal properly.

It explains how to:

- Log in to the system
- Review and approve collectors' and treasurers' reports
- Generate and download verified reports
- Monitor overall revenue and report history
- Update personal profile and manage account settings

The goal of this guide is to help accountants ensure accurate financial monitoring and transparent record-keeping within the municipality.

2. SYSTEM REQUIREMENTS

Before using the Municipal Payment Portal, make sure your computer or device meets the following requirements for smooth and error-free operation.

a. Hardware Requirements

- A computer or laptop with internet access
- A printer (if you need to print reports or summaries)
- A stable and reliable internet connection

💡 *If your internet connection is slow, wait for pages to fully load before clicking other buttons to avoid errors.*

b. Software Requirements

The system works online through a web browser, so you don't have to install anything.

Recommended Browsers:

- **Google Chrome** – *Best browser to use for the system (**highly recommended**)*
- Mozilla Firefox – Works well, but may load slower on some pages
- Microsoft Edge – Compatible but may display pages slightly differently
- Opera – Can be used, but some features might not appear the same

Other Tools Needed:

- **PDF Reader:** Adobe Acrobat Reader or any app that can open PDF files (for viewing receipts)
- **Excel/Spreadsheet Applications:** Microsoft Excel, Google Sheets or any app that can open Excel files (for opening downloaded generated reports)

💡 *The system works best on **Google Chrome** because it displays all pages correctly and loads faster than other browsers.*

2.3 Account and Security Settings

- Each user will receive a **username and password** from the system administrator.
- Keep your password **private and secure**.
- Always **log out** after using the system, especially on shared computers.
- The system also includes a **security feature** that logs you out automatically if you are inactive for a while. *(More details about this are explained in the Security and Privacy section.)*

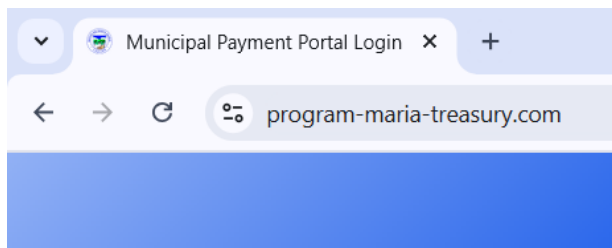

3. GETTING STARTED

This section will guide you through the basic steps in using the **Municipal Payment Portal**, from opening the system to exploring its main features. Follow these steps carefully to make sure you can access your account and navigate the system properly.

3.1 Accessing the System

1. Open your **web browser**.
2. In the address bar, type the system link:

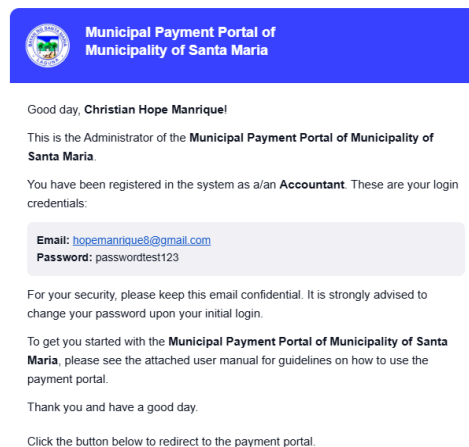

www.program-maria-treasury.com

3. Press **Enter** on your keyboard.
4. The **Municipal Payment Portal Login Page** will appear.

3.2 Obtaining the Login Credentials

1. The login credentials are only provided by the system administrator.
2. To access your login credentials, the system administrator must have sent an email that contains your login credentials to your email account that will be used in the system.

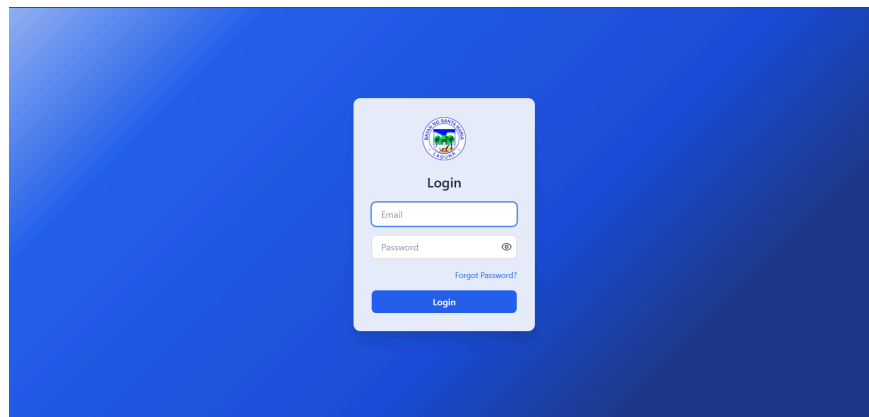

a.

3.3 Logging In

1. On the login page, enter your **Email** and **Password** that were given by the system administrator.
2. Click the **Login In** button.
3. Wait a few seconds while the system loads.
4. Once logged in, you will be directed to the **Collector's Dashboard**.

💡 If you enter the wrong credentials, an error message will appear. Try again or click the “Forgot Password” to recover your account (see 3.6 **Forgot Password / Account Recovery**).

3.4 Sidebar Menu

On the **left side of the screen**, you'll see the **sidebar** — this is your main navigation tool.

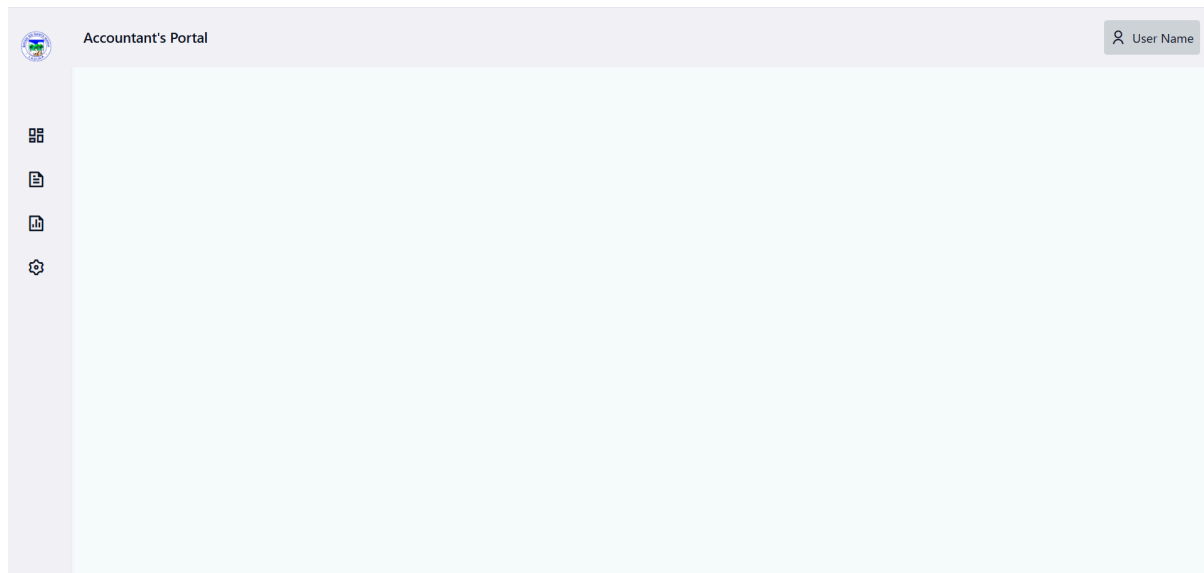

It contains all the system pages you'll use.

Sidebar Menu Options:

- **Dashboard** – shows the overall financial summary, revenue and transaction details, payment type breakdown, and report shortcuts
- **Receipt Batches** – for managing receipts that will be provided for the payment processing
- **Payments** – for processing payments, the primary source of the transactions throughout the system
- **Transactions** —displays all payment records that you processed
- **Reports** – for creating financial and summary reports
- **Settings** – where you can edit your profile, change password, or adjust auto-logout and lock screen times

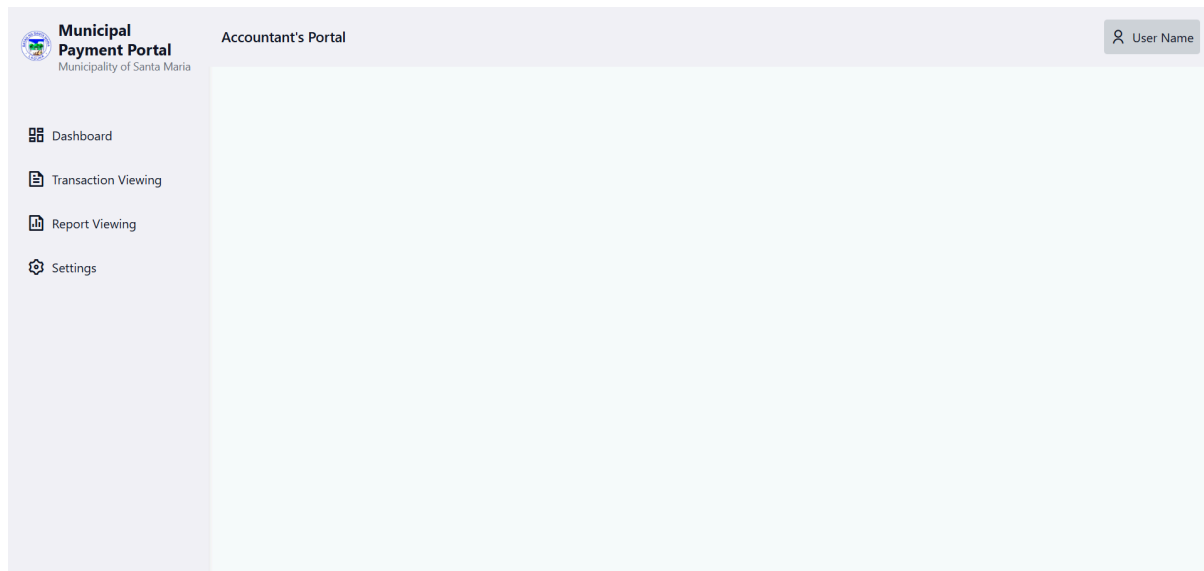

💡 The sidebar automatically **expands** when you hover your mouse over it, and **collapses** again when you move the cursor away. This helps keep your workspace clean and gives more space for the dashboard and reports.

Sidebar (Collapsed / Not Hovered)

“Sidebar when not hovered — only the icons are visible.”

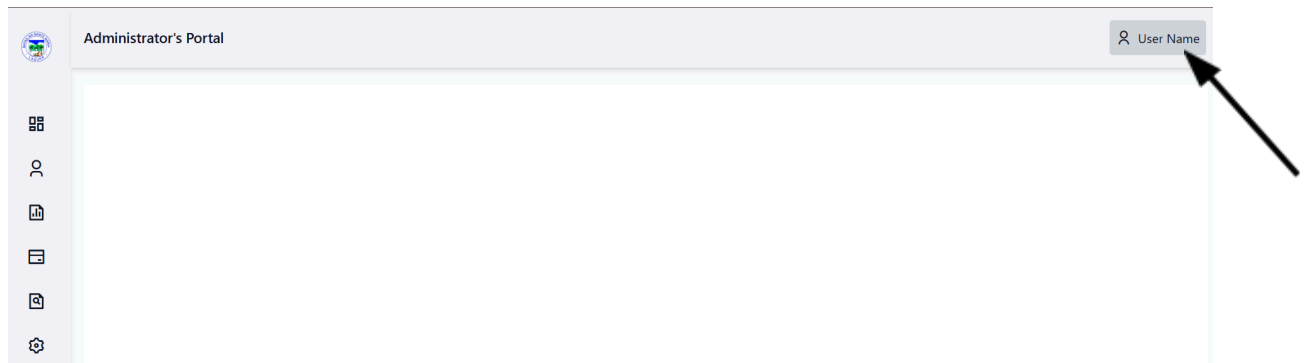

Sidebar (Expanded / Hovered)

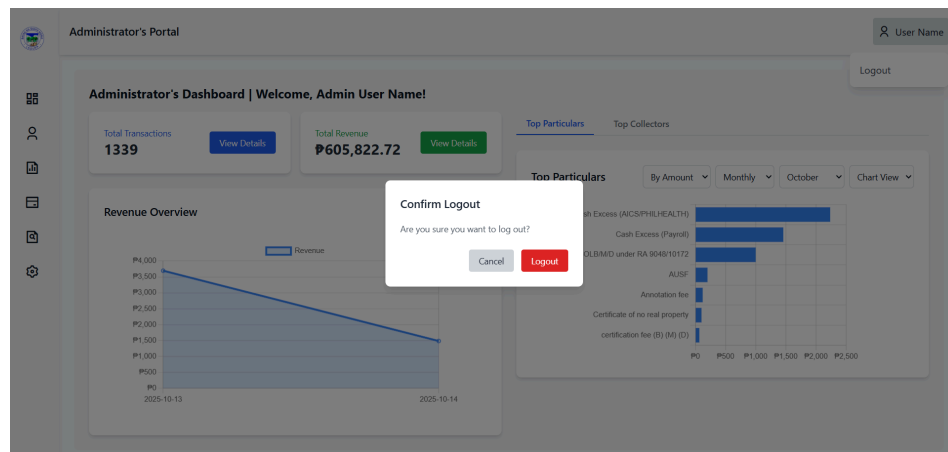

“Sidebar when hovered — full menu names appear.”

3.5 Logging Out

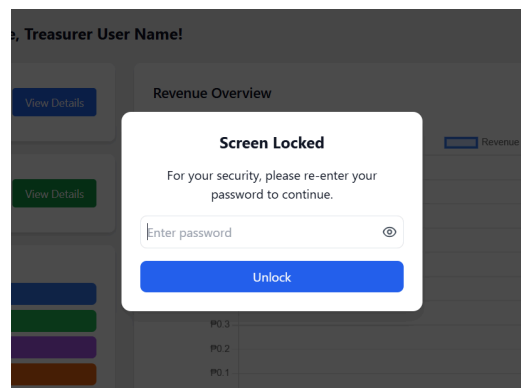

1. When you're done, click **Logout** on the sidebar or the top right corner of the screen.

2. Wait for the confirmation message that asks you to confirm your logout in the system. Click the logout button to exit the system.

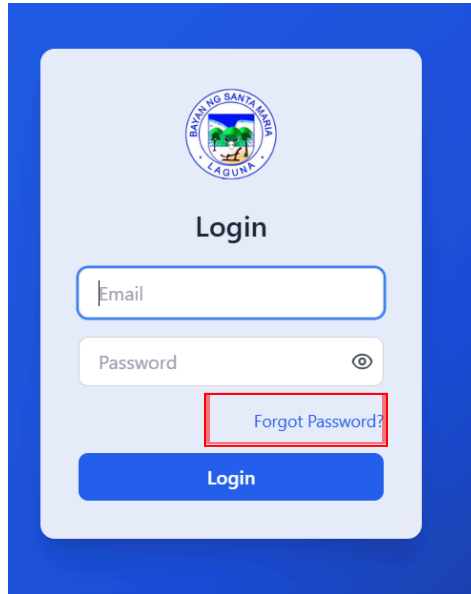

3. You can log in again anytime using your username and password.

💡 If you leave your account inactive for a few minutes, the system will log you out automatically (session timeout) to keep your account secure.

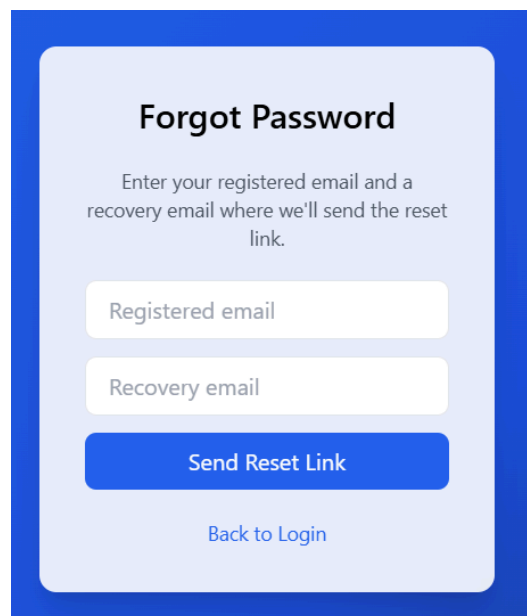

3.6 Forgot Password/Account Recovery

1. When you forget your password, on the login page, click on “**Forgot Password?**” under the password input field.

The screenshot shows a login interface with a blue background. At the top center is the Bayan Lgo Santa Maria Laguna logo. Below it is the word "Login". There are two input fields: "Email" and "Password". The "Password" field has a toggle icon (an eye) to its right. Below the "Password" field, the text "Forgot Password?" is highlighted with a red rectangular box. At the bottom is a blue button labeled "Login".

2. Once clicked, you will be redirected to the Forget Password Page, which contains an input field to enter your recovery email and your registered email address in the system. If the system does not recognize the email address, then there will be no reset link sent.
 - a. **Note:** The recovery email will be the recipient of the reset link.

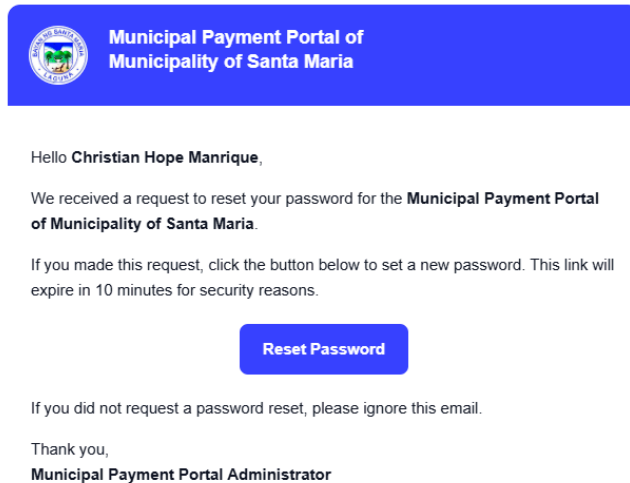

The screenshot shows the "Forgot Password" page. At the top is the title "Forgot Password". Below it is a text prompt: "Enter your registered email and a recovery email where we'll send the reset link." There are two input fields: "Registered email" and "Recovery email". Below these fields is a blue button labeled "Send Reset Link". At the bottom is a link labeled "Back to Login".

3. Click the “Send Reset Link” button to obtain the reset link, and check your email account. You should receive an email like this:

Password Reset Request > Inbox x

Municipal Payment Portal <0322-2198@lspu.edu.ph>
to me ▾

4. Click the “Reset Password” button to access the reset link.
5. Once clicked, you will be redirected to the Reset Password page, which contains a new password input field.

The image shows a "Reset Password" page. It has a blue background. In the center, there's a light blue rounded rectangle. Inside this rectangle, the text "Reset Password" is displayed in bold. Below this text is a white input field with the placeholder text "Enter new password". At the bottom of the light blue rectangle is a blue button labeled "Update Password".

6. Enter your new password and click the Update Password button.
7. Once clicked, you will be redirected back to the Login Page, and then you can log in again using your new password.

4. ACCOUNTANT FUNCTIONS

This section explains the main features that the Accountant can use inside the **Municipal Payment Portal**.

As an accountant, you can view submitted reports from the treasurer, review and verify financial data, and generate summary reports for record-keeping and documentation.

4.1 DASHBOARD

After logging in, you will be directed to the **Accountant's Dashboard** — the main page where you can view important summaries of transactions, revenues, and reports submitted by the treasurer.

The Accountant's Dashboard provides a clear overview of the municipality's financial activities, helping you track and validate data efficiently.

a. Dashboard Overview

The dashboard is divided into the following main sections:

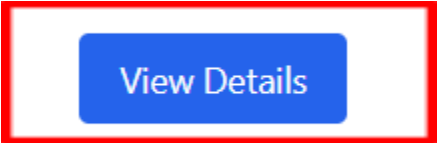

- **Total Transactions**
Displays the total number of transactions recorded in the system.
Click "**View Details**" to see a summary of all transactions filtered by day, month, quarter, or year.

How to view transactions:

1. From the **Dashboard**, click "**View Details**" under **Total Transactions**.

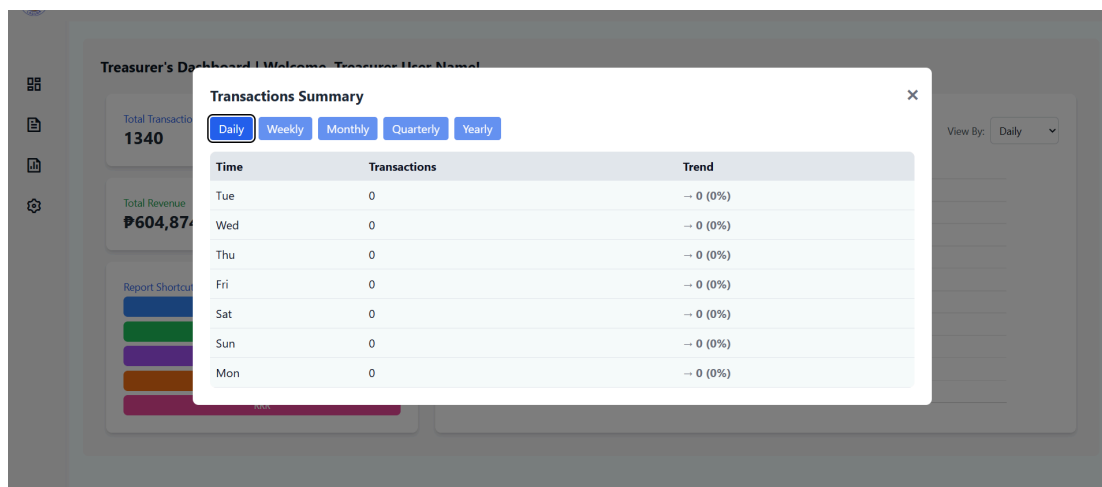

Total Transactions

1340

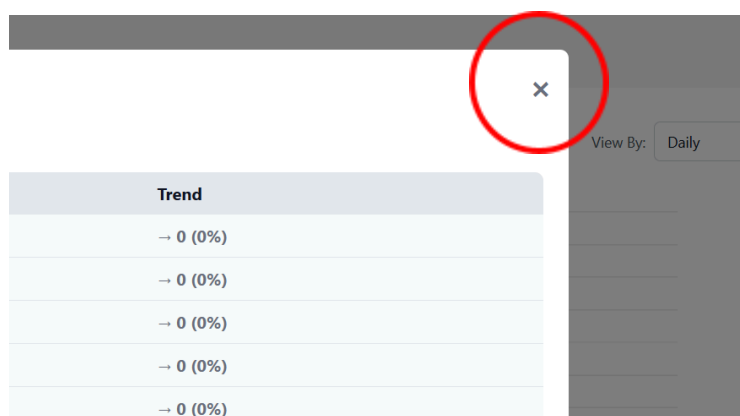

View Details

2. Choose your **preferred filter** (Daily, Weekly, Monthly, Quarterly, or Yearly).

3. The table will update automatically to show transaction counts for each period.
4. Review the results to monitor activity and see if collections increased or stayed the same.
5. Click the **X icon** on the top-right corner to close the window.

Use “Monthly” or “Quarterly” view to check long-term performance trends.

- **Total Revenue**
Shows the total verified revenue collected.
You can click “**View Details**” to access more detailed revenue data such as daily, monthly, or annual totals.

How to view revenue:

1. From the **Dashboard**, click “**View Details**” under **Total Revenue**.

Total Revenue
₱604,874.51

View Details

2. Pick your desired filter (Daily, Weekly, Monthly, Quarterly, or Yearly).

Treasurer's Portal

Treasurer's Dashboard | Welcome, Treasurer User Name!

Total Transactions: 1340

Total Revenue: ₱604,874.51

Report Shortcuts

Revenue Summary

Filter: Daily Weekly Monthly Quarterly Yearly

Time	Revenue	Trend
Tue	P0.00	→ 0 (0%)
Wed	P0.00	→ 0 (0%)
Thu	P0.00	→ 0 (0%)
Fri	P0.00	→ 0 (0%)
Sat	P0.00	→ 0 (0%)
Sun	P0.00	→ 0 (0%)
Mon	P0.00	→ 0 (0%)

View By: Daily

3. The system automatically refreshes the table to display revenues for the selected range.
4. Review the **Trend** column to see if the collection increased or decreased.
5. Click the **X** icon to close the summary window.

→ 0 (0%)

→ 0 (0%)

→ 0 (0%)

→ 0 (0%)

X

View By: Daily

💡 The “Revenue Summary” helps track how much income the municipality receives over time and compare performance across different periods.

- **Summary KPIs (Key Performance Indicators)**

Displays quick financial metrics, including:

- **Total Reports Generated (Today / Week / Month)** – the number of submitted reports received from the treasurer.
- **Most Common Report Type** – identifies which type of report (Monthly, Quarterly, Yearly) is most often submitted.
- **Latest Report Generated** – shows the most recent report received, such as “RRR – Jazmin Dorado (Treasurer)”.

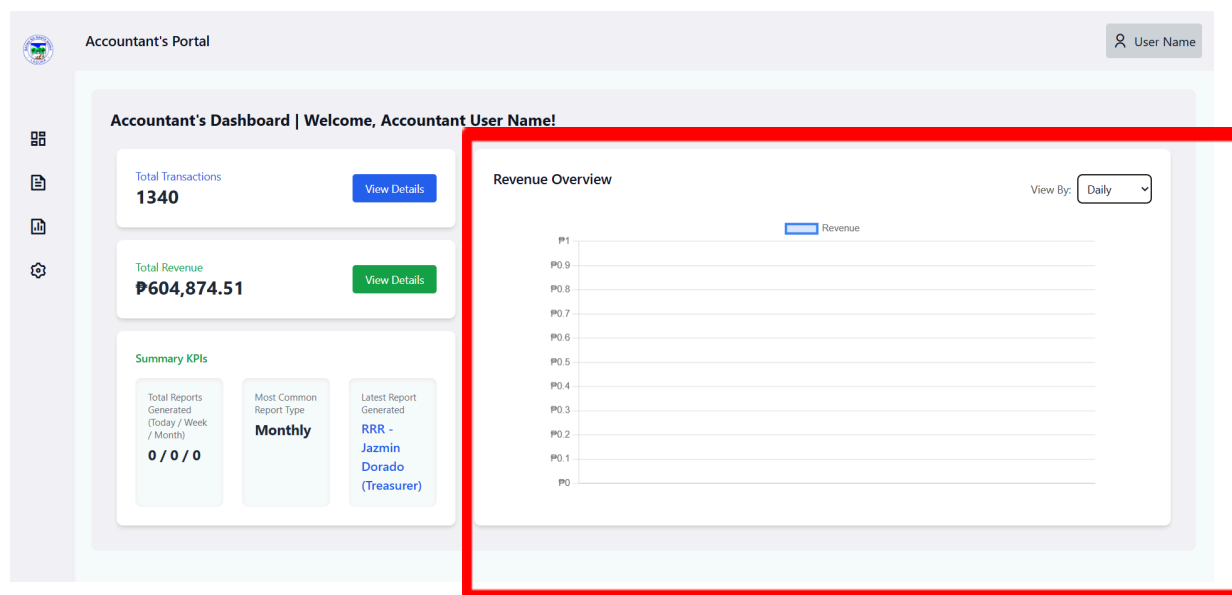

💡 This helps the accountant quickly check recent submissions and reporting activity.

b. Revenue Overview Chart

The **Revenue Overview** chart provides a visual representation of revenue performance.

Use the “**View By**” dropdown menu to switch between different views (*Daily, Weekly, Monthly, Quarterly, or Yearly*).

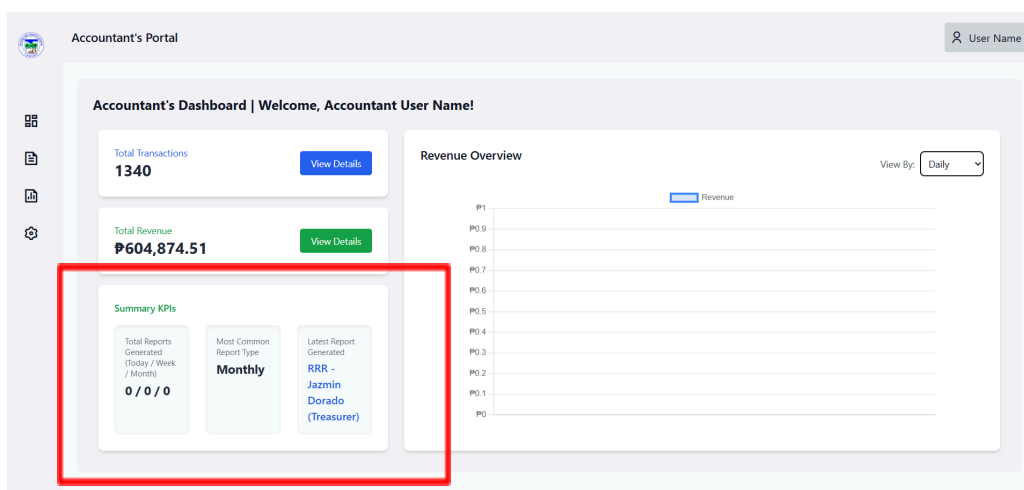

This chart helps accountants analyze trends in collection and detect any irregularities in reported revenues.

c. Viewing the Latest Generated Report

Under **Summary KPIs**, the *Latest Report Generated* displays the most recent report submitted by the Treasurer.

Clicking on the report title (e.g., *RRR – Name*) will open a **pop-up preview window** of the report.

The **Report Preview Window** shows a detailed breakdown of remittances and revenues categorized by account codes such as:

- Taxes on Business (Banks, Contractors, Retailers)
- Interest or Surcharges
- Fees and other income sources

You can scroll horizontally and vertically to review the full data table.

💡 *This helps accountants verify report accuracy before generating consolidated summaries or forwarding the data for auditing.*

Note: *This is just a sample report for demonstration purposes.*

4.2 Transaction Viewing

The **Transaction Viewing** section allows the Accountant to review all recorded payment transactions submitted through the Municipal Payment Portal. This helps ensure that collections from the Treasurer's Office are properly logged and accounted for.

Note: This is just a sample report for demonstration purposes.

When you click the **Transactions icon** on the sidebar, the system will display the **Transaction Viewing** page.

Here, you can see important details such as:

- **PGL No.** – the unique payment log number assigned to each transaction
- **Date** and **Time** – when the payment was made
- **Payer Name** – name of the person who made the payment
- **Particulars** – list of fees or taxes paid
- **Amount** – total payment received
- **Payment Type** – mode of payment (Cash, Check, etc.)
- **Check Number** – displayed if the payment was made by check
- **Actions** – button to view transaction details

a. Filtering Transactions

To help you locate specific records, the system provides several **filter options**:

- **Today** – shows transactions made on the current date
- **Select Month / Quarter / Year / Day** – narrows down results based on your chosen period
- **Filter by Date Range** – view transactions within specific start and end dates
- **Search Bar** – allows you to search by PGL No. or Payer Name

Page 1 of 268

2. A pop-up window will appear showing the complete transaction details, including:

- **PGL No.** – the Payment Log Number for the transaction
- **Payor's Name** – name of the person who made the payment
- **Date** – date when the transaction was recorded
- **Time** – exact time the payment was processed
- **Payment Type** – shows if the transaction was paid in Cash or Check
- **Total Amount** – the total amount received
- **Particulars Paid** – list of fees or services paid for in that transaction

Once you've reviewed the information, click **Close** to exit the pop-up window.

💡 *This detailed view helps accountants verify and confirm the accuracy of transaction records and ensure they match the Treasurer's submitted reports.*

4.3 Report Viewing

The Report Viewing section allows the Accountant to review and verify reports submitted by the Treasurer.

This feature helps the Accountant ensure that all financial reports are properly filed and accurate before final approval or consolidation.

When you click the Report Viewing icon on the sidebar, the system will display all reports submitted through the portal.

a. Viewing Reports

Each report record includes the following details:

- **Report Type** – shows the kind of report submitted (e.g., Monthly, Quarterly, Yearly, RRR, or Engineering Share)
- **Position** – identifies who submitted the report (usually the Treasurer)
- **Description** – short note or title of the report
- **Report Date** – indicates the coverage date of the report
- **Submitted On** – shows when the report was submitted
- **Submitted By** – name of the person who submitted the report
- **Actions** – provides a *View* button (eye icon) to open and review the report in detail

 If no reports are available, the system will display “No reports found.”

b. Filtering Reports

You can filter the displayed reports to find specific ones faster.

The system allows you to sort and filter reports using these options:

- Filter by Type – choose the report type you want to view (e.g., Monthly, RRR)

Report Viewing

Filter by Type: All	Filter by Position: All	From Date: mm/dd/yyyy	To Date: mm/dd/yyyy
------------------------	----------------------------	--------------------------	------------------------

- Filter by Position – shows reports submitted by a specific role (e.g., Treasurer)

Report Viewing

Filter by Type: All	Filter by Position: All	From Date: mm/dd/yyyy	To Date: mm/dd/yyyy
------------------------	----------------------------	--------------------------	------------------------

- From Date and To Date – set a date range to display reports within specific dates

Report Viewing

Filter by Type: Filter by Position: From Date: To Date:

Once the filters are selected, the table will automatically update to show matching results.

c. Viewing Report Details

To review a report:

1. Click the View (eye icon) in the *Actions* column.

Report Viewing

Filter by Type: Filter by Position: From Date: To Date:

Report Type	Position	Description	Report Date	Submitted On	Submitted By	Actions
RRR	Treasurer		9/16/2025	9/15/2025, 4:47:58 PM	Jazmin Dorado	
RRR	Treasurer		8/17/2025	8/17/2025, 12:16:08 PM	Jazmin Dorado	
Engineering Share	Treasurer		8/17/2025	8/17/2025, 12:15:36 PM	Jazmin Dorado	
Yearly	Treasurer		8/17/2025	8/17/2025, 12:15:06 PM	Jazmin Dorado	
Quarterly	Treasurer		8/17/2025	8/17/2025, 12:14:19 PM	Jazmin Dorado	

« 1 2 3 »

2. A pop-up window will appear showing the report in table format.
This includes breakdowns of collections, taxes, and fees
3. Scroll horizontally to view the complete report.
4. Click Close once done reviewing.

The Accountant can use this feature to cross-check Treasurer and collectors submissions and verify report accuracy before archiving or approval.

4.4 Settings

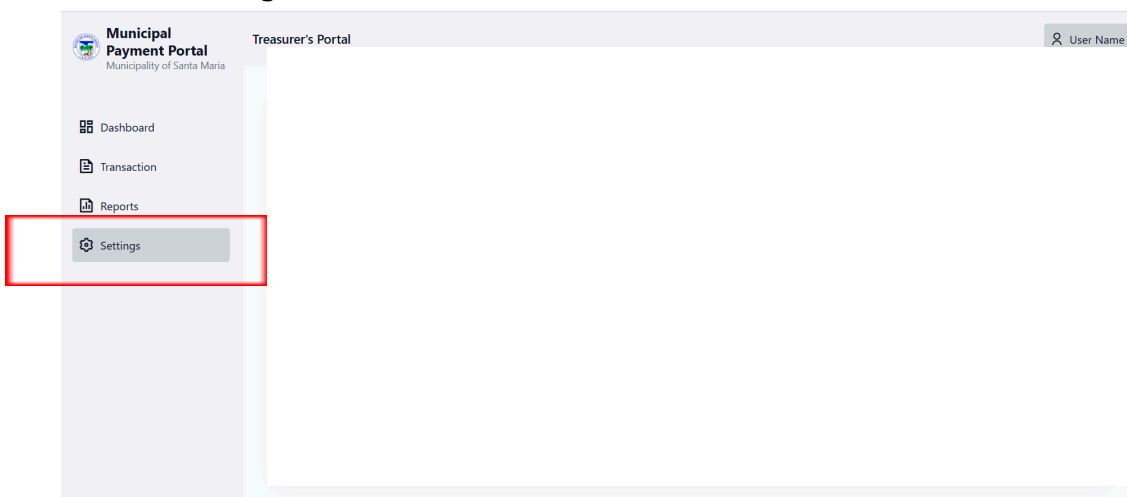

The **Settings section** allows the treasurer to manage their account preferences and security settings.

From here, users can update their password, adjust session timeout options, and control how long the system stays active when idle.

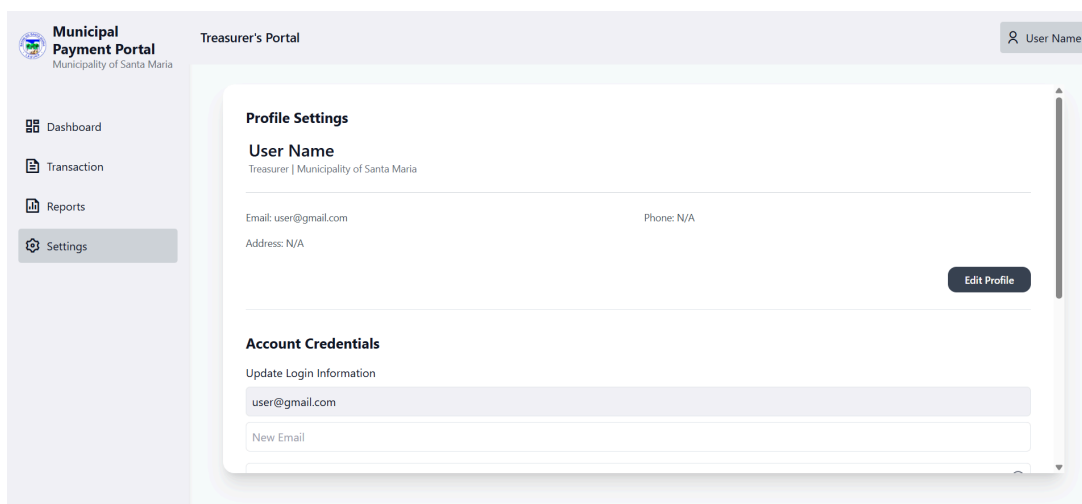

These settings help ensure that your account and data remain secure at all times.

a. Accessing the Settings Page

1. Click the **Settings icon** on the sidebar.

2. The **Account Settings** page will open, where you can view or edit your personal and security preferences.

b. Editing Your Profile

You can easily update your personal information in the system.

1. Go to the **Settings** page.
2. Click the **Edit Profile** button.

d. Session Timeout Settings

To change the logout duration and lockscreen duration, you can scroll to the bottom of the settings section. **This is where the session timeout is located.**

The screenshot shows the 'Treasurer's Portal' interface. At the top, there's a header with a logo and 'User Name'. Below the header, there's a form for updating credentials with fields for 'New Email', 'Current Password', 'New Password', and 'Confirm New Password', followed by an 'Update Credentials' button. Below this, the 'Session Timeout Settings' section is highlighted with a red box. It contains two dropdown menus: 'Lock Screen Time (minutes)' set to '15 Minutes' and 'Auto Logout Time (minutes)' set to '20 Minutes'. A 'Save Timeout Settings' button is located to the right of these settings.

💡 Shorter timeouts increase security, while longer ones are more convenient during long tasks.

a. Lock Screen Time

The **Lock Screen feature** lets you secure your session temporarily without logging out completely.

To use it:

1. Go to the Session Timeout Settings at the bottom of the “Settings Section”.
2. Click the lockscreen dropdown and choose your desired time based on your preference (e.g., 1, 5, or 15 minutes).

This is a close-up of the 'Session Timeout Settings' section. The 'Lock Screen Time (minutes)' dropdown menu is open, showing a list of options: '1 Minute', '2 Minutes', '5 Minutes', '10 Minutes', and '15 Minutes'. The '15 Minutes' option is currently selected and highlighted in blue. The 'Auto Logout Time (minutes)' dropdown remains set to '20 Minutes'. The 'Save Timeout Settings' button is visible to the right.

3. Once you're done, click the "Save timeout Settings".

Session Timeout Settings

Lock Screen Time (minutes) Auto Logout Time (minutes)

Save Timeout Settings

a. Auto-Logout Time

For your protection, the system automatically logs you out after being inactive for a certain time — this is called an **Auto-log-out Time**.

- If you're away from your computer, the system will log you out automatically to prevent unauthorized access.
- You can **change the auto-logout duration** in the **Settings** section based on your preference.

To change this:

1. Go to the Session Timeout Settings at the bottom of the "Settings Section".
2. Click the **Auto-Logout Time** and choose your desired time based on your preference (e.g., 5, 10, or 30 minutes).
