1. INTRODUCTION

This manual provides comprehensive instructions on how to use the Municipal Payment Portal effectively. It is designed to help users navigate the system, make payments, and manage their accounts with ease.

1.1 System Overview

The **Municipal Payment Collection System** is a web-based system developed for the **Municipality of Santa Maria, Laguna**. It helps automate the process of recording payments, generating reports, and tracking finances.

For the **Administrator**, the system provides tools to monitor real-time transactions, manage the registered employees in the system, view and download financial reports from collectors and treasurers, manage the LGU payment references that exist in the system, and view the audit logs to ensure that every transaction and actions are properly tracked and protected. It also includes security features such as role-based access and session timeouts.

1.2 Purpose of the Manual

This manual is made to guide **Municipal Staff (Administrators)** on how to use the Municipal Payment Portal properly. It explains how to:

- Log in to the system,
- Manage the employees in the system,
- View and download financial reports,
- Manage the LGU payment references,
- Manage the audit logs,
- Update profile and account settings
- Update the organization's information
- Perform backup and restore of the system's database

The main purpose of this guide is to help administrators understand how to use the system efficiently and make daily financial operations smoother and more transparent for the municipality.

2. SYSTEM REQUIREMENTS

Before using the **Municipal Payment Portal**, make sure your computer or device is ready. This section explains what you need so the system works smoothly and without errors.

2.1 Hardware Requirements

You don't need special equipment to use the system. You just need:

- A **computer or a laptop** to open the system
- A **dot matrix printer** is needed if you need to print receipts or reports
- A **stable internet connection** so pages and reports load properly

💡 *If your internet is slow, wait a few seconds for the page to finish loading before clicking again.*

2.2 Software Requirements

The system works online through a web browser, so you don't have to install anything.

Recommended Browsers:

- **Google Chrome** – *Best browser to use for the system (**highly recommended**)*
- Mozilla Firefox – Works well, but may load slower on some pages
- Microsoft Edge – Compatible but may display pages slightly differently
- Opera – Can be used, but some features might not appear the same

Other Tools Needed:

- **PDF Reader:** Adobe Acrobat Reader or any app that can open PDF files (for viewing receipts)
- **Excel/Spreadsheet Applications:** Microsoft Excel, Google Sheets or any app that can open Excel files (for opening downloaded generated reports)

💡 *The system works best on **Google Chrome** because it displays all pages correctly and loads faster than other browsers.*

2.3 Account and Security Settings

- Each user will receive a **username and password** from the system administrator.
 - Keep your password **private and secure**.
 - Always **log out** after using the system, especially on shared computers.
- The system also includes a **security feature** that logs you out automatically if you are inactive for a while. *(More details about this are explained in the Security and Privacy section.)*

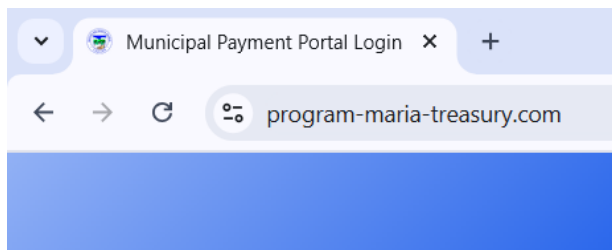

3. GETTING STARTED

This section will guide you through the basic steps in using the **Municipal Payment Portal**, from opening the system to exploring its main features. Follow these steps carefully to make sure you can access your account and navigate the system properly.

3.1 Accessing the System

1. Open your **web browser**.
2. In the address bar, type the system link:

www.program-maria-treasury.com

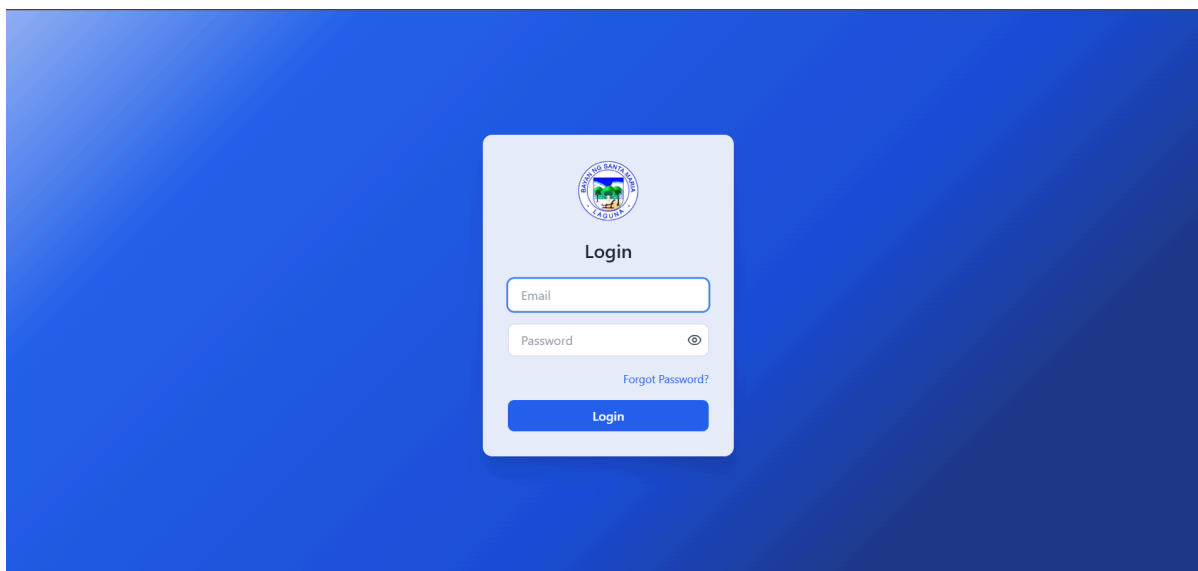

3. Press **Enter** on your keyboard.
4. The **Municipal Payment Portal Login Page** will appear.

3.2 Logging In

1. On the login page, enter your **Email** and **Password** that were given by the system administrator.
2. Click the **Login In** button.
3. Wait a few seconds while the system loads.
4. Once logged in, you will be directed to the **Administrator's Dashboard**.

💡 *If you enter the wrong credentials, an error message will appear. Try again or contact the system admin to reset your password.*

3.3 Sidebar Menu

On the **left side of the screen**, you'll see the **sidebar** — this is your main navigation tool.

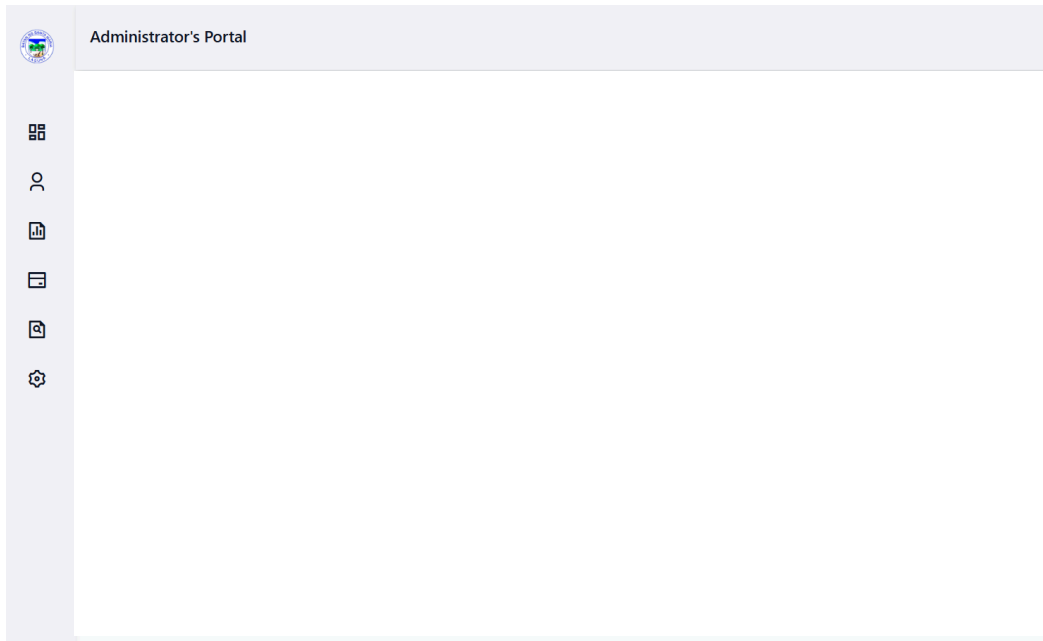

It contains all the system pages you'll use.

Sidebar Menu Options:

- **Dashboard** – shows the overall financial summary, top performing collectors, and the most availed payment reference
- **Employees** – for managing existing employees, adding employees, and removing employees in the system
- **Reports** – for creating financial and summary reports
- **LGU Payment Reference** — for adding, updating, and removing LGU payment references, account codes, departments, and payment categorization
- **Audit Logs** – for real-time viewing of the actions occurring in the system
- **Settings** – where you can edit your profile, change password, or adjust auto-logout and lock screen times, change the organization information, and backup and restore the system database

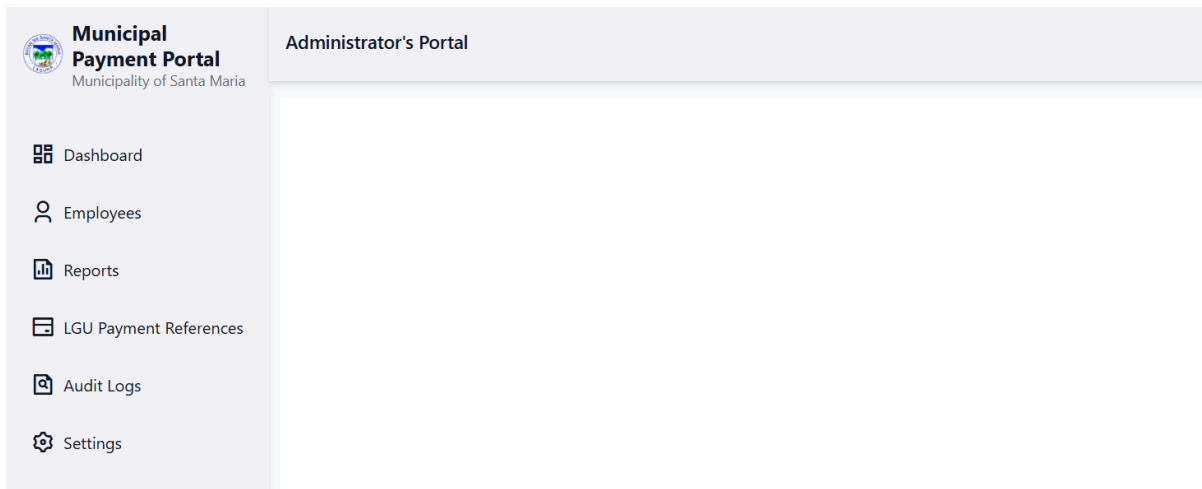

💡 *The sidebar automatically **expands** when you hover your mouse over it, and **collapses** again when you move the cursor away. This helps keep your workspace clean and gives more space for the dashboard and reports.*

Sidebar (Collapsed / Not Hovered)

“Sidebar when not hovered — only the icons are visible.”

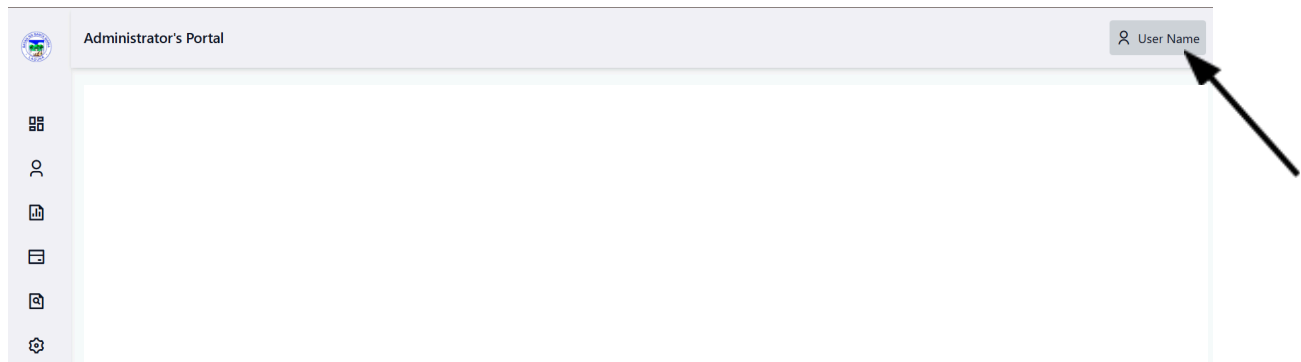

Sidebar (Expanded / Hovered)

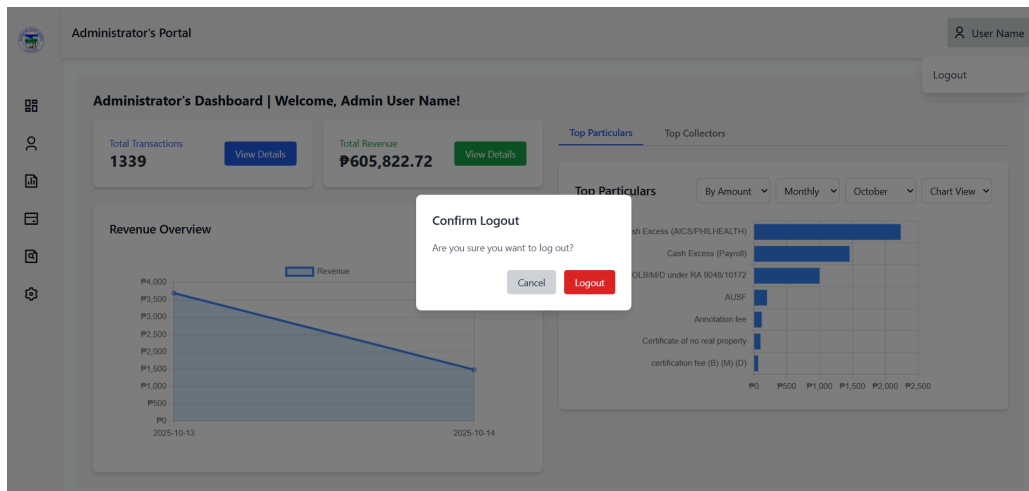

“Sidebar when hovered — full menu names appear.”

3.4 Logging Out

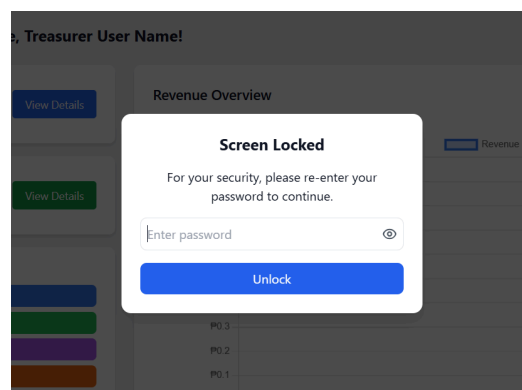

1. When you're done, click **Logout** on the sidebar or the top right corner of the screen.

2. Wait for the confirmation message that asks you to confirm your logout in the system. Click the logout button to exit the system.

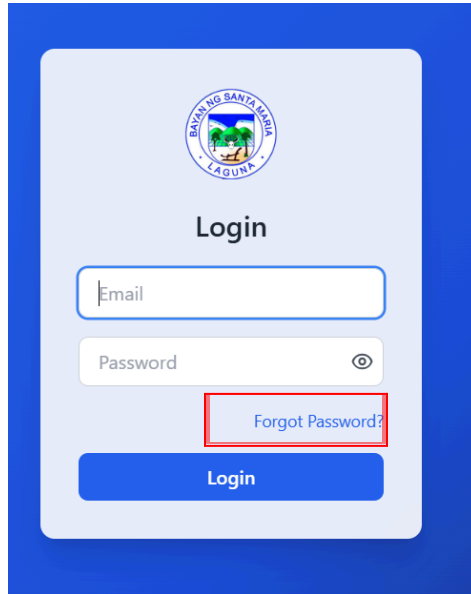

3. You can log in again anytime using your username and password.

💡 If you leave your account inactive for a few minutes, the system will log you out automatically (session timeout) to keep your account secure.

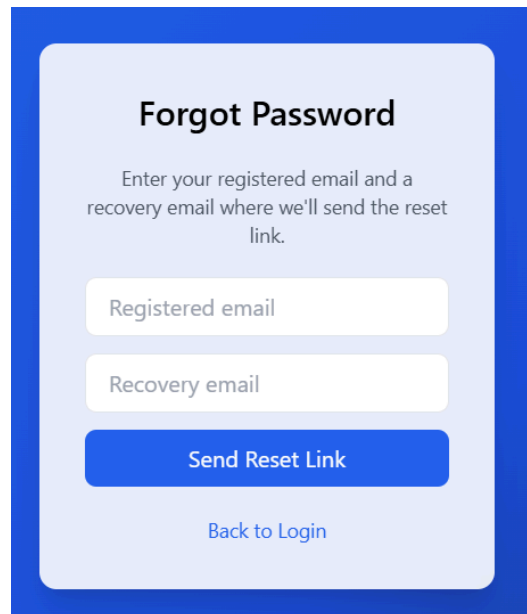

3.5 Forgot Password/Account Recovery

1. When you forget your password, in the login page, click on the “**Forgot Password?**” under the password input field.

The screenshot shows a login interface with a blue header. At the top center is the Bayan LG Santa Maria Laguna logo. Below the logo is the word "Login". There are two input fields: "Email" and "Password". The "Password" field has a toggle icon (an eye) to its right. Below the "Password" field, the text "Forgot Password?" is highlighted with a red rectangular box. At the bottom of the form is a blue button labeled "Login".

2. Once clicked, you will be redirected to the Forget Password Page, which contains an input field to enter your recovery email and your registered email address in the system. If the system does not recognize the email address, then there will be no reset link sent.
 - a. **Note:** The recovery email will be the recipient of the reset link.

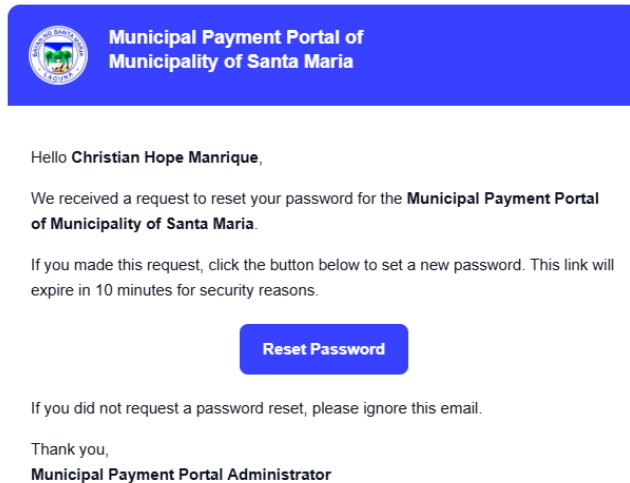

The screenshot shows the "Forgot Password" page. At the top, the title "Forgot Password" is centered. Below the title is a paragraph: "Enter your registered email and a recovery email where we'll send the reset link." There are two input fields: "Registered email" and "Recovery email". Below these fields is a blue button labeled "Send Reset Link". At the bottom of the form is a link labeled "Back to Login".

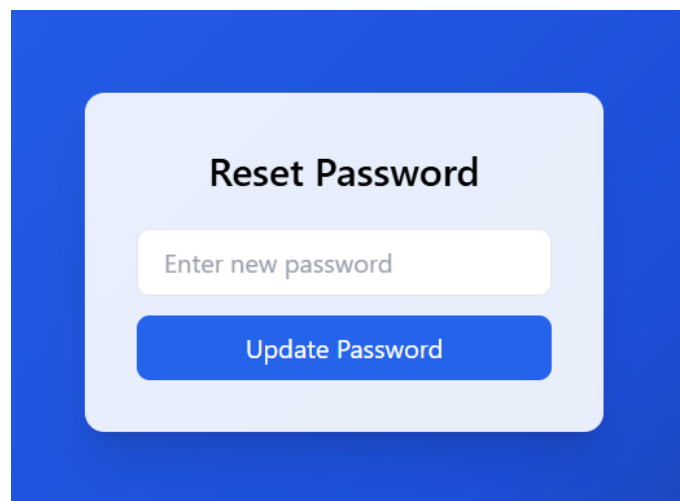

3. Click the “Send Reset Link” button to obtain the reset link, and check your email account. You should receive an email like this:

Password Reset Request  

Municipal Payment Portal <0322-2198@lspu.edu.ph>
to me ▾

4. Click the “Reset Password” button to access the reset link.
5. Once clicked, you will be redirected to the Reset Password page, which contains a new password input field.

The screenshot shows a "Reset Password" page. It has a blue background. In the center, there's a light blue rounded rectangle. Inside this rectangle, the text "Reset Password" is displayed at the top. Below it is a white text input field with the placeholder text "Enter new password". At the bottom of the light blue rectangle is a blue button with the text "Update Password" in white.

6. Enter your new password, and click the Update Password button.
7. Once clicked, you will be redirected back to the Login Page, and then you can login again using your new password.

4. ADMINISTRATOR FUNCTIONS

This section explains the main features that the **Administrator** can use inside the **Municipal Payment Portal**.

As an administrator, you can view the details of the revenue collected and transactions, manage registered employees, view and download reports, manage LGU payment references, view audit logs, manage the organization's information, backup and restore data, and manage your account settings to keep your information secure and updated.

4.1 DASHBOARD

After logging in, you will be directed to the **Administrator's Dashboard**, which is the main page of the system. This dashboard gives the administrator a quick overview of all financial activities and collections, top performing collectors, and the ranking of the particulars based on how often they are availed.

In the Dashboard, you will see several key sections:

a. Viewing Transactions

When you click **"View Details"** under **Total Transactions**, a window appears showing the **Transactions Summary**.

This summary helps the administrator to see how many payments were made within a specific time range.

Transactions Summary Window

The window contains:

- **Filter Buttons:** Daily | Weekly | Monthly | Quarterly | Yearly
- **Table Columns:**
 - **Time** – day or period being viewed
 - **Transactions** – number of payments recorded
 - **Trend** – percentage or movement of transactions over time
 -

How to view transactions:

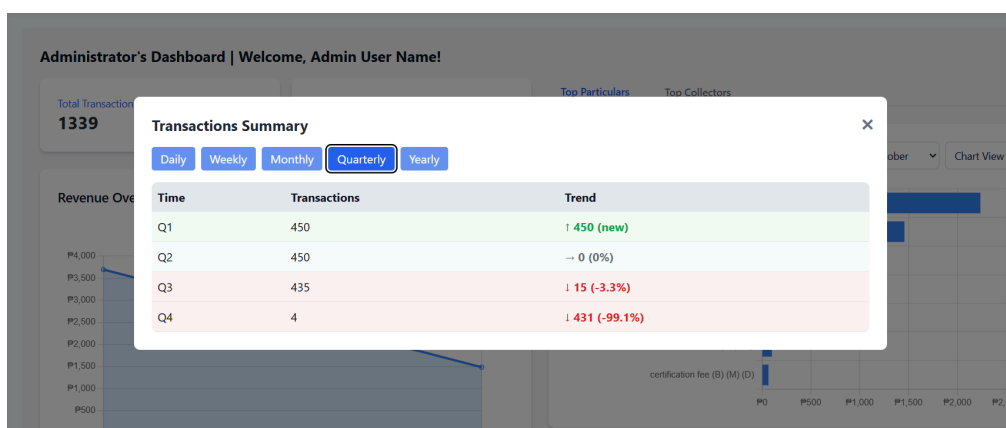

1. From the **Dashboard**, click “**View Details**” under **Total Transactions**.

Total Transactions
1340

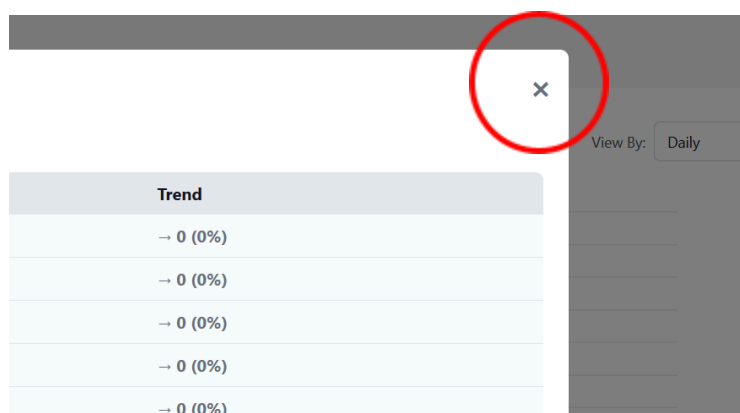

View Details

2. Choose your **preferred filter** (Daily, Weekly, Monthly, Quarterly, or Yearly).

3. The table will update automatically to show transaction counts for each period.
4. Review the results to monitor activity and see if collections increased or stayed the same.
5. Click the **X icon** on the top-right corner to close the window.

 Use “Monthly” or “Quarterly” view to check long-term performance trends.

b. Viewing Revenue

When you click “**View Details**” under **Total Revenue**, another window opens called **Revenue Summary**.

This shows how much money was collected in each period, along with trend comparisons.

Revenue Summary Window

The window displays:

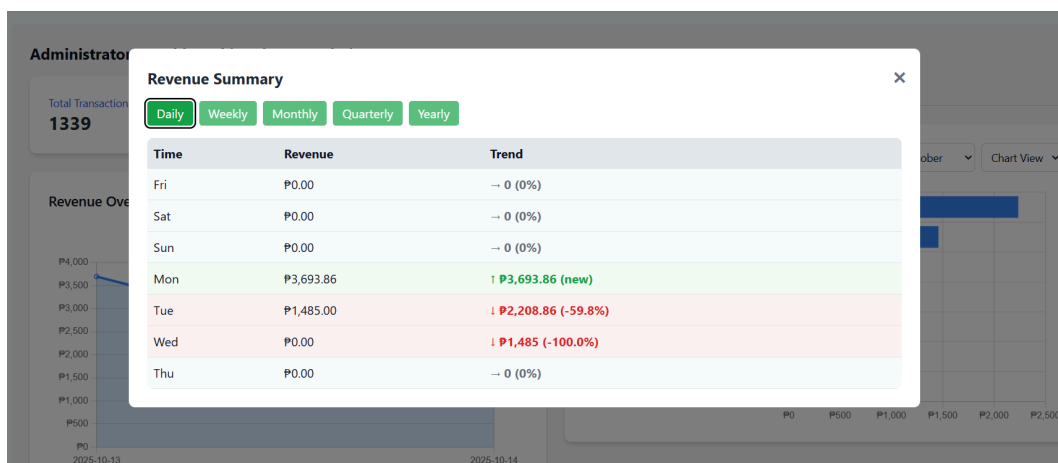

- **Filter Buttons:** Daily | Weekly | Monthly | Quarterly | Yearly
- **Table Columns:**
 - **Time**— period of collection
 - **Revenue** – total amount collected in pesos (₱)
 - **Trend** – percentage increase or decrease compared to the previous period

How to view revenue:

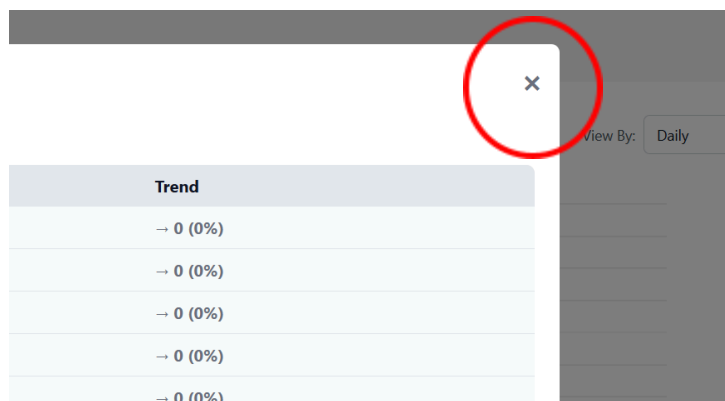

1. From the **Dashboard**, click “**View Details**” under **Total Revenue**.

2. Pick your desired filter (Daily, Weekly, Monthly, Quarterly, or Yearly).

3. The system automatically refreshes the table to display revenues for the selected range.
4. Review the **Trend** column to see if the collection increased or decreased.
5. Click the **X icon** to close the summary window.

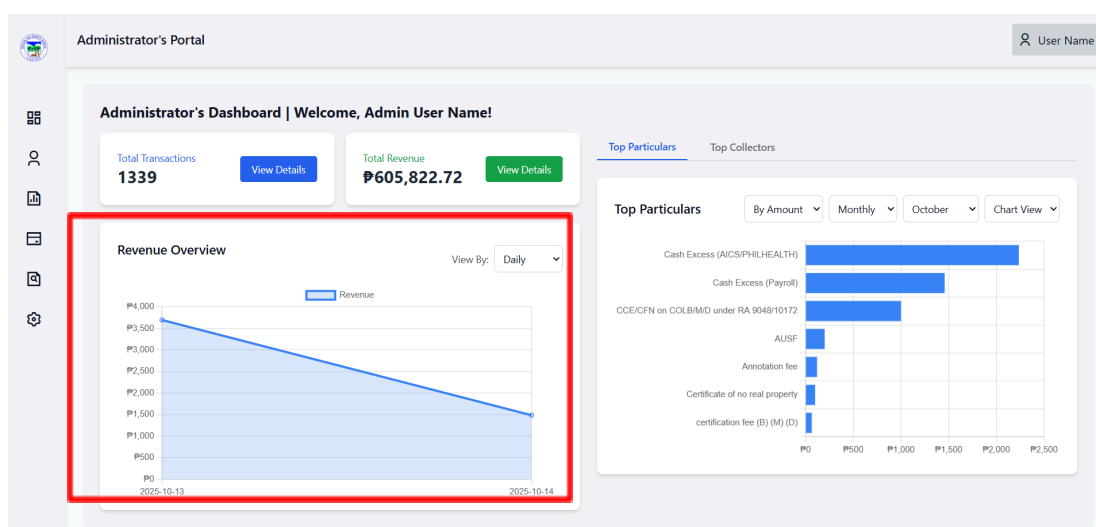

💡 The “Revenue Summary” helps track how much income the municipality receives over time and compare performance across different periods.

c. Revenue Overview Chart

The Revenue Overview chart provides a visual representation of revenue performance.

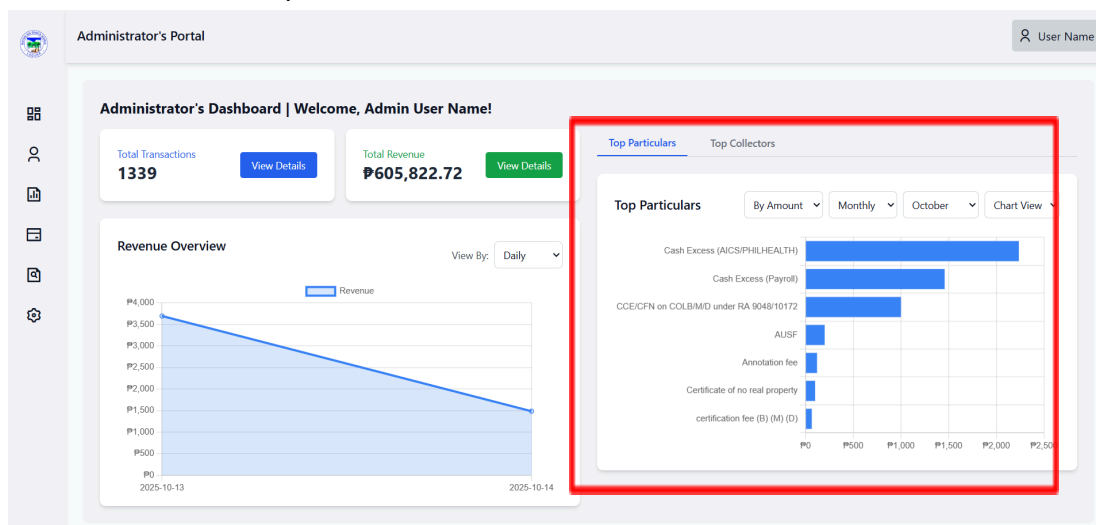

Use the “View By” dropdown menu to switch between different views (**Daily, Weekly, Monthly, Quarterly, or Yearly**).

This chart helps accountants analyze trends in collection and detect any irregularities in reported revenues.

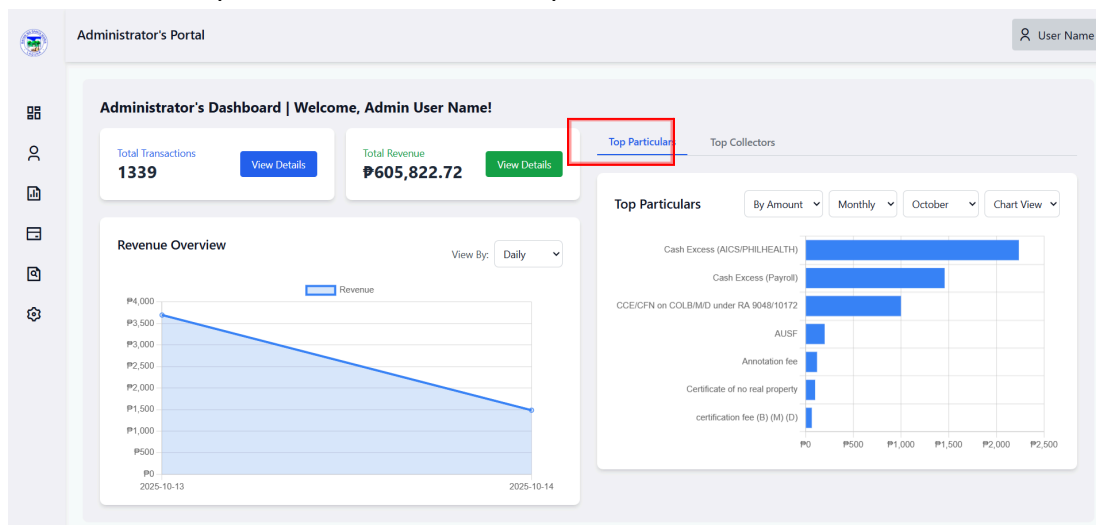

d. Viewing Top Particulars

1. On the right side of the dashboard, you will see a section separated by tabs for “Top Particulars” and “Top Collectors”:

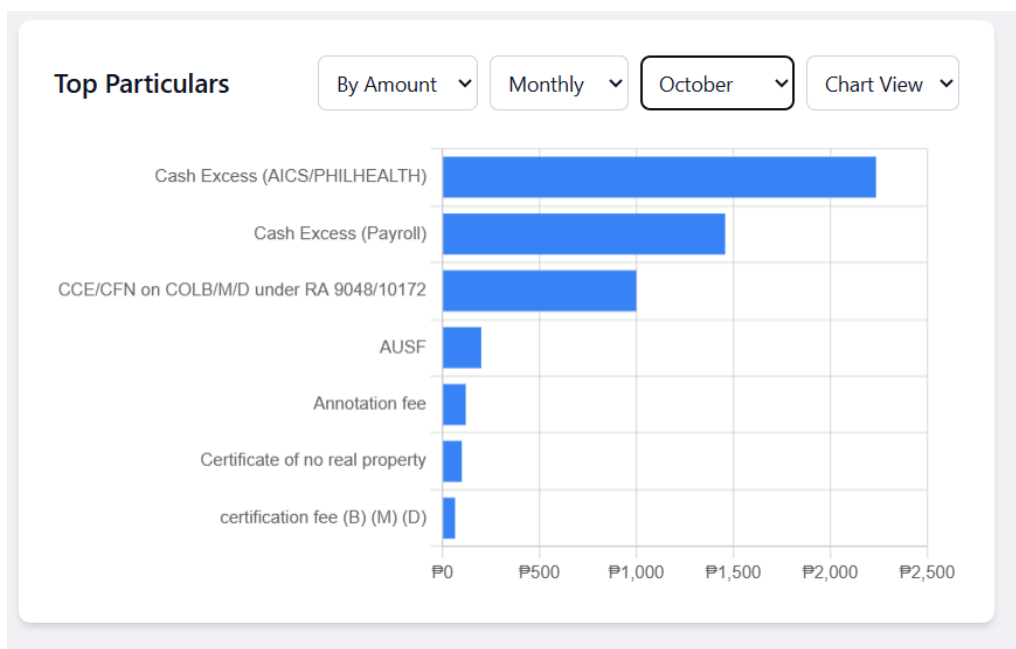

- a. **Top Particulars** - displays the top 10 particulars availed in a selected period of time
- b. **Top Collectors** - displays the top 10 performing collectors in a selected period of time

2. To view the Top Particulars, click the “Top Particulars” tab to view it.

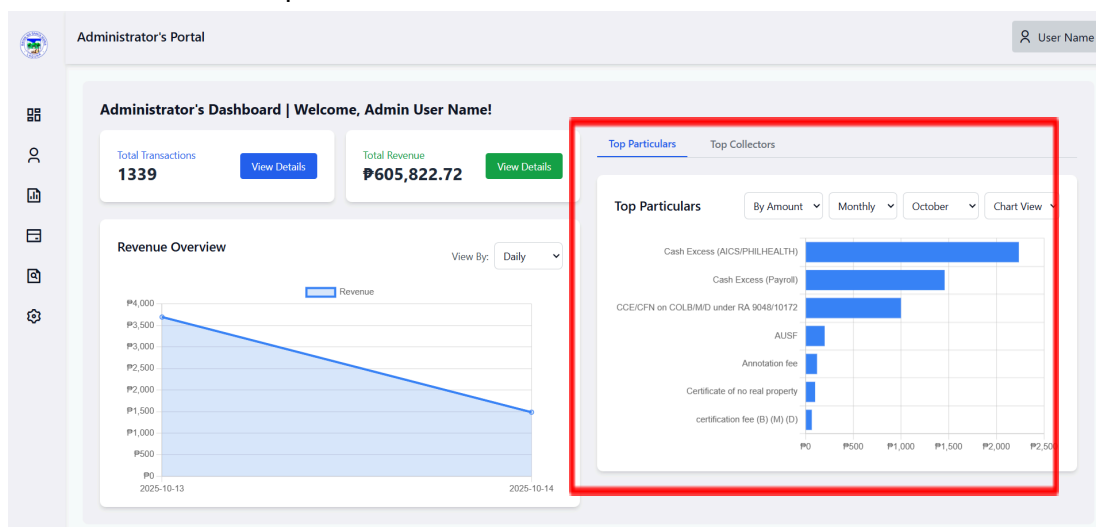

3. In the Top Particulars tab, there are different filtering options:

- By Amount/By Quantity** - filters the graph/list to rank particulars based on the amount collected, or how often the particulars are availed
- Timeframe Filters** - filter the graph/list based on the selected timeframe (monthly, quarterly, yearly)
- View Modes** - changes how the presentation of the top particulars will be (graph view, list view)

e. Viewing Top Collectors

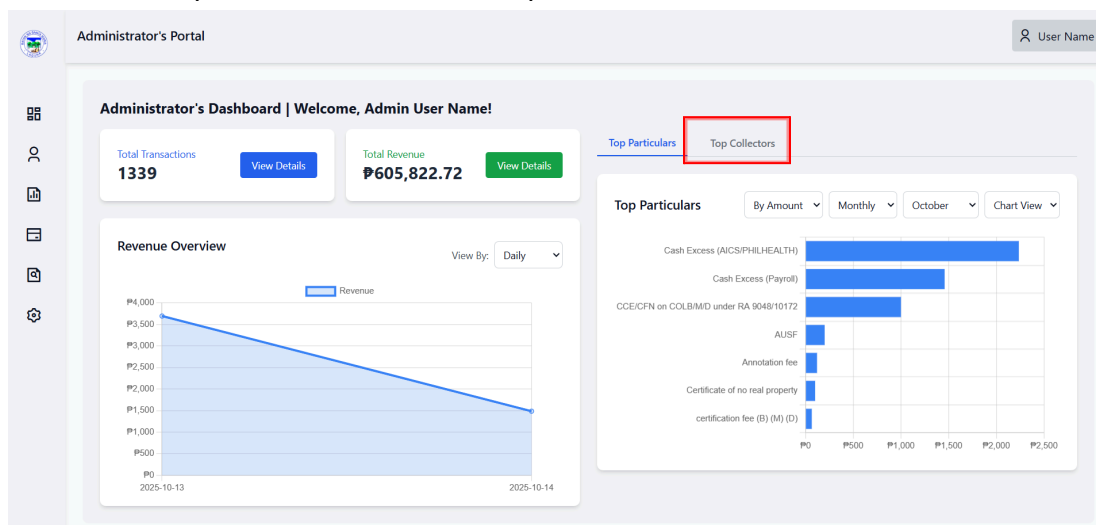

- On the right side of the dashboard, you will see a section separated by tabs for “Top Particulars” and “Top Collectors”:

- Top Particulars** - displays the top 10 particulars availed in a selected period of time

- e. **Top Collectors** - displays the top 10 performing collectors in a selected period of time

2. To view the Top Particulars, click the “Top Collectors” tab to view it.

3. In the Top Collectors tab, there are different filtering options:

Top Collectors			By Revenue	All Time
RANK	COLLECTOR	VALUE		
1	Hope Manrique	314,340.72		
2	Alliah Baraoed	154,433.00		
3	Earl Louie Maulion	137,049.00		

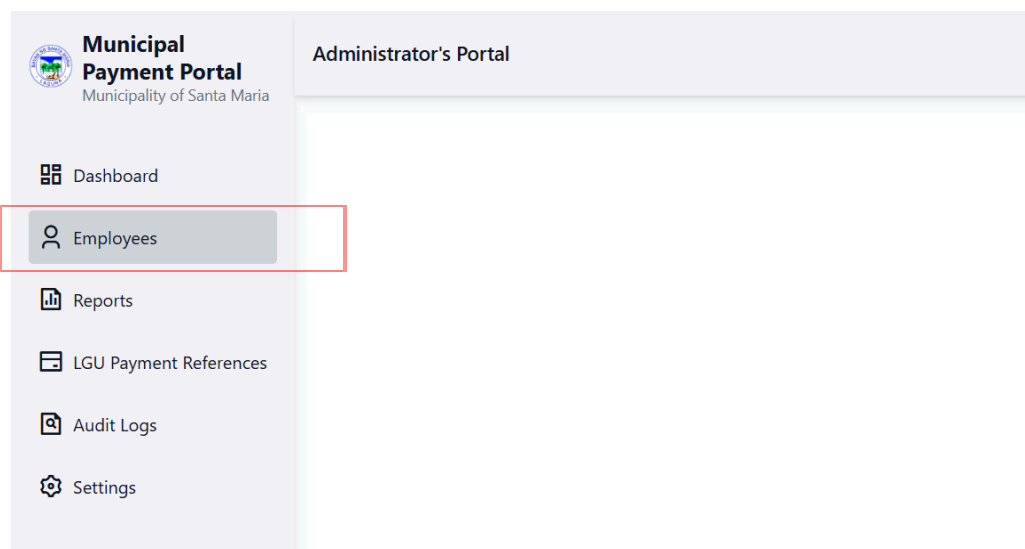

- a. **By Revenue/By Transaction** - filters the list to rank the collectors based on the revenue collected, or how many transactions they have done
- b. **Timeframe Filters** - filter list based on the selected timeframe (today, weekly, monthly, quarterly, yearly)

4.2 EMPLOYEES

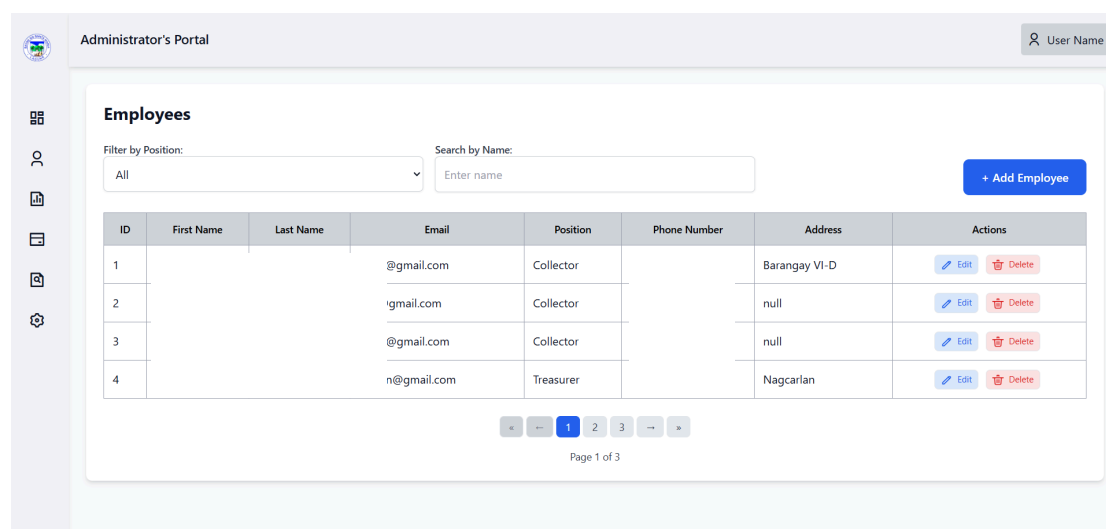

The **Employees section** allows the administrator to view, search, create, and delete employees. This page serves as the main source of the registered employees.

a. Viewing Employees

1. Click the **Employees icon** from the sidebar.

2. The **Employees Table** will appear, showing all the registered employees recorded in the system.

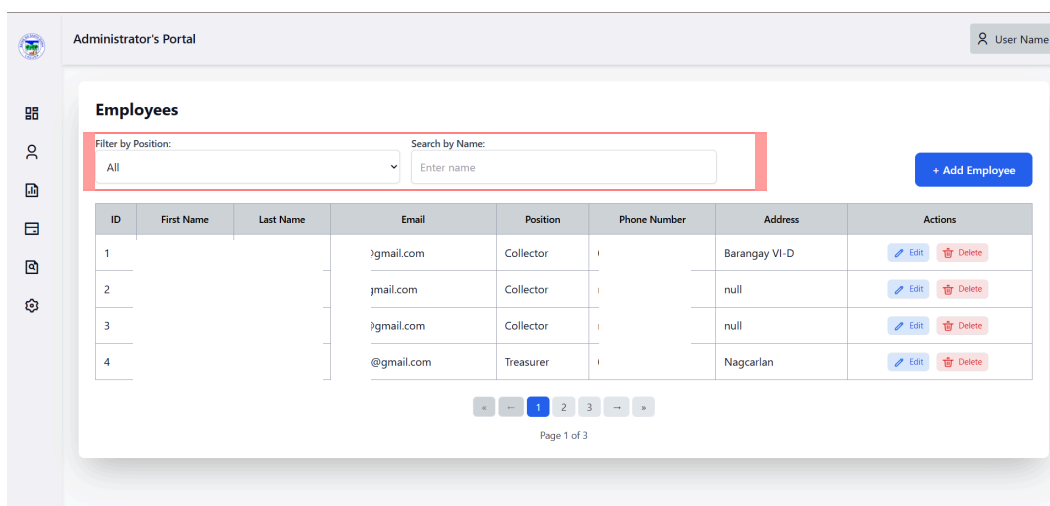

Note: This is just sample data for demonstration purposes.

3. Each row includes the following information:

- **ID** – Number of the employee based on the order of registration
- **First Name** – first name of the registered employee
- **Last Name** – last name of the registered employee
- **Email** – email of the registered employee that has been provided by the administrator
- **Position** – employee's role/position in the system
- **Phone Number** – phone number of the employee
- **Address** – address of the employee
- **Actions** – edit and delete actions for updating the employee details and employee account deletion

b. Filtering and Searching Employees

To find specific employees faster, use the filters and search bar at the top of the table.

The screenshot shows the 'Administrator's Portal' interface. At the top, there's a header with a logo on the left and a user profile icon labeled 'User Name' on the right. Below the header, the main content area is titled 'Employees'. It features a 'Filter by Position:' dropdown menu set to 'All' and a 'Search by Name:' text input field with the placeholder 'Enter name'. To the right of these filters is a blue button labeled '+ Add Employee'. Below the filters is a table with the following columns: ID, First Name, Last Name, Email, Position, Phone Number, Address, and Actions. The table contains four rows of data. At the bottom of the table, there are pagination controls showing 'Page 1 of 3'.

ID	First Name	Last Name	Email	Position	Phone Number	Address	Actions
1			j@gmail.com	Collector		Barangay VI-D	Edit Delete
2			jmail.com	Collector		null	Edit Delete
3			j@gmail.com	Collector		null	Edit Delete
4			@gmail.com	Treasurer		Nagcarlan	Edit Delete

Note: This is just a sample report for demonstration purposes.

● Position Filters

- **All** - displays all employees registered in the system
- **Treasurer** - filters the table to display the employees that has the treasurer position
- **Collector** - filters the table to display the employees that has the collector position
- **Accountant** - filters the table to display the employees that has the accountant position
- **Admin** - filters the table to display the employees that has the admin position

Save

3. Input all of the necessary information and login credentials in the form.
 - a. **Note:** *The recipient email will receive the email containing the login information, the email under the “Employee Login Credentials” will be used to login into the system by the employee.*
4. You can click the “Generate Strong Password” to suggest a strong password for enhanced account security.
5. Once done, click the save button to register the employee. This will trigger an automated email containing the login credentials to be sent to the employee's recipient email.

Welcome to the Municipal Payment Portal of Municipality of Santa Maria ▶ Inbox x

Payment Portal Administrator <0322-2198@lspu.edu.ph>
to me ▾

**Municipal Payment Portal of
Municipality of Santa Maria**

Good day

This is the Administrator of the **Municipal Payment Portal of Municipality of Santa Maria**.

You have been registered in the system as a/an **Accountant**. These are your login credentials:

Email:

Password: passwordtest123

For your security, please keep this email confidential. It is strongly advised to change your password upon your initial login.

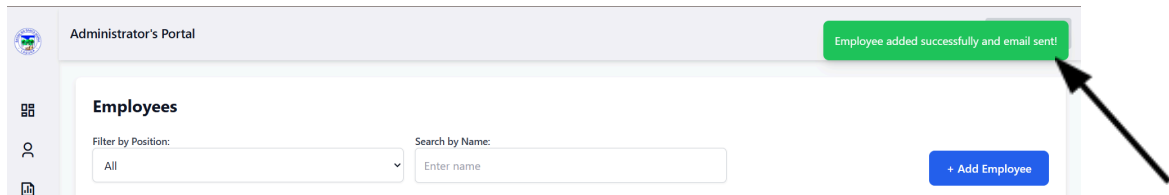

To get you started with the **Municipal Payment Portal of Municipality of Santa Maria**, please see the attached user manual for guidelines on how to use the payment portal.

Thank you and have a good day.

Click the button below to redirect to the payment portal.

Login Now

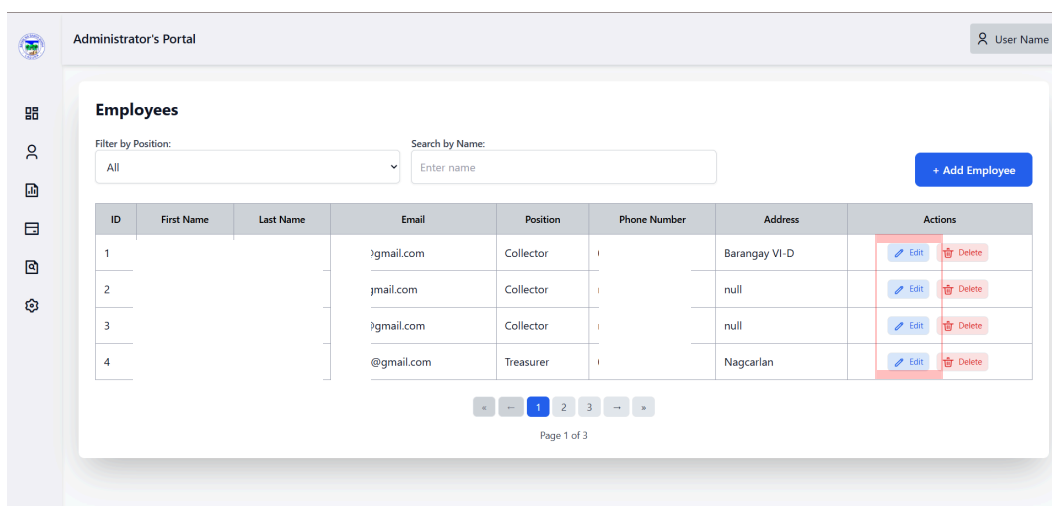

- Wait until a confirmation toast appears, which will notify you if the employee is successfully registered in the system.

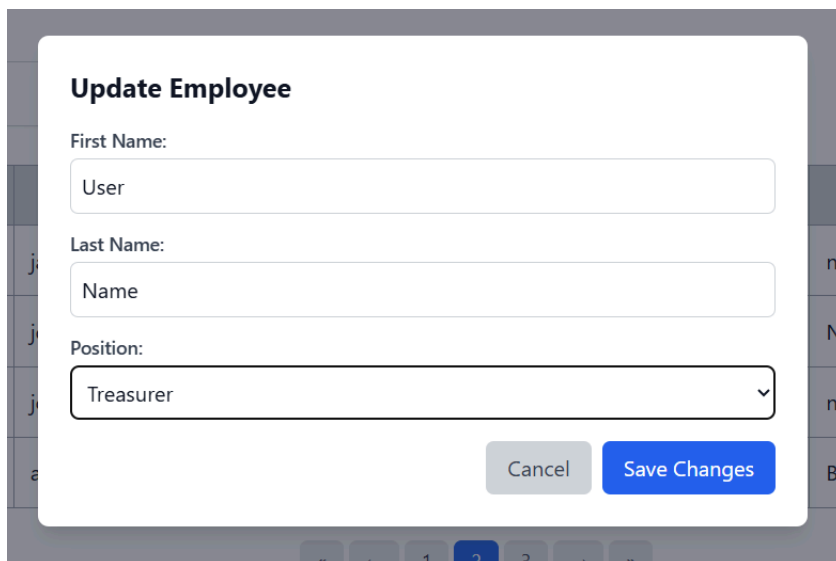

- Once the confirmation toast appears, the system will automatically reload to update the table to display the new employee.

d. Editing/Updating an Employee

In the **Actions** column in the employees table, by clicking the edit button in the corresponding employee row, you can edit the details of the selected employee.

- Click the edit button in the corresponding employee row to edit their details.
- Once clicked, a pop-up form containing different input fields for first name, last name, and position that will be pre-filled based on the current employee details.
 - Note:** The administrator can only update the employee's name and position once the employee is already registered in the system. This will ensure the security of the employee's account to have their login information protected, and they will only have the privilege to change/update their own login credentials.

Update Employee

First Name:

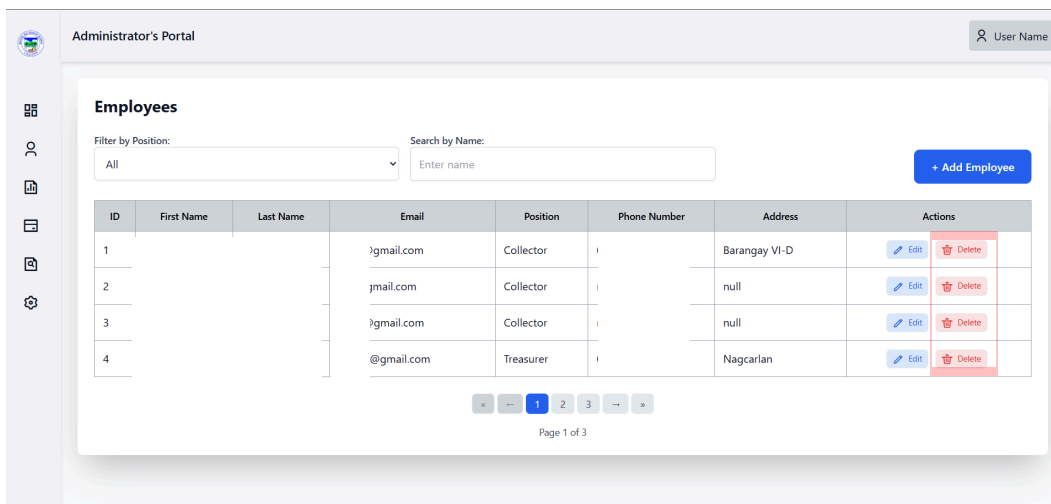

Last Name:

Position:

- Once done updating the employee details, click the Save Changes button to commit the changes in the details of the employee.

d. Deleting an Employee

In the **Actions** column in the employees table, by clicking the delete button in the corresponding employee row, you can delete the selected employee.

Administrator's Portal

Search by Name:

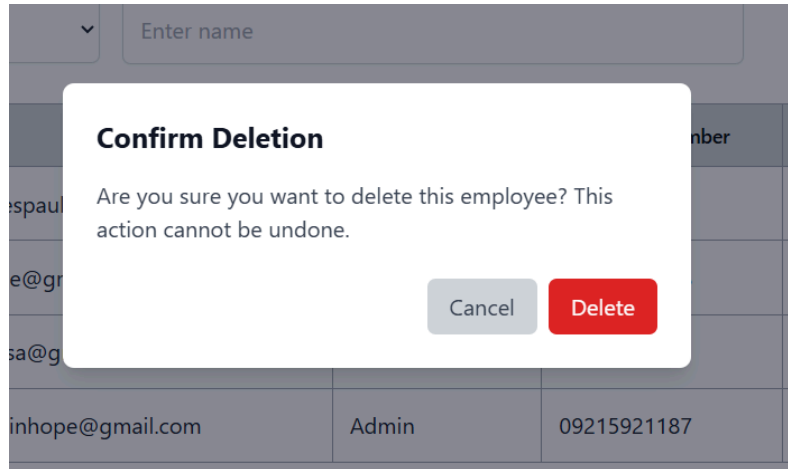

Filter by Position:

[+ Add Employee](#)

ID	First Name	Last Name	Email	Position	Phone Number	Address	Actions
1			j@gmail.com	Collector		Barangay VI-D	Edit Delete
2			jmail.com	Collector		null	Edit Delete
3			j@gmail.com	Collector		null	Edit Delete
4			@gmail.com	Treasurer		Nagcarlan	Edit Delete

Page 1 of 3

- Click the delete button in the corresponding employee row to delete the selected employee.
- Once clicked, a pop-up confirmation message appears, asking for the confirmation of the deletion of the selected employee.

3. Click the delete button to confirm the deletion. If you do not wish to continue the deletion, click the Cancel button.

4.3. REPORTS

The **Reports section** allows the administrator to view and download generated financial reports submitted by the collectors and treasurers to the system for review and record-keeping.

This section ensures that all required reports (such as Monthly, Quarterly, or Yearly summaries) are properly documented and accessible to authorized personnel, like the accountant and system administrator.

a. Accessing Reports Section

When you click on the Reports icon in the sidebar, you'll see the reports table containing the submitted reports of the collectors and treasurers.

Filter Options

You can filter or search reports using the following fields:

- **Filter by Type** – choose the type of report you want to view (e.g., Monthly, Quarterly).
- **Filter by Position** - choose the employee position to display the reports that are submitted by a specific employee position (e.g., Collectors, Treasurers).
- **From Date / To Date** – specify a date range to narrow your search.
- **Reset Filters** - click this button if you wish to display all of the reports unrestricted by the date range.

Reports

Filter by Type: Filter by Position: From Date: To Date: [Reset Filters](#)

The table below these filters shows:

- **Report Type** – the kind of report (Monthly, Quarterly, etc.)
- **Position** — the employee's position who submitted the report
- **Description** – short details added by the treasurer
- **Report Date** – the coverage date of the report
- **Submitted On** – the date the report was uploaded
- **Submitted By** – the name of the employee who submitted the report
- **Actions** – options to view or download the submitted report

💡 If no reports appear, it means no reports have been submitted yet.

b. Viewing a Report

To view a submitted report, follow these steps:

1. Go to the **Reports** section in the sidebar.
2. Choose a report you want to view in the reports table.
3. Click the **Eye Icon** in the **Actions** column in the corresponding report row.

4.4 LGU Payment References

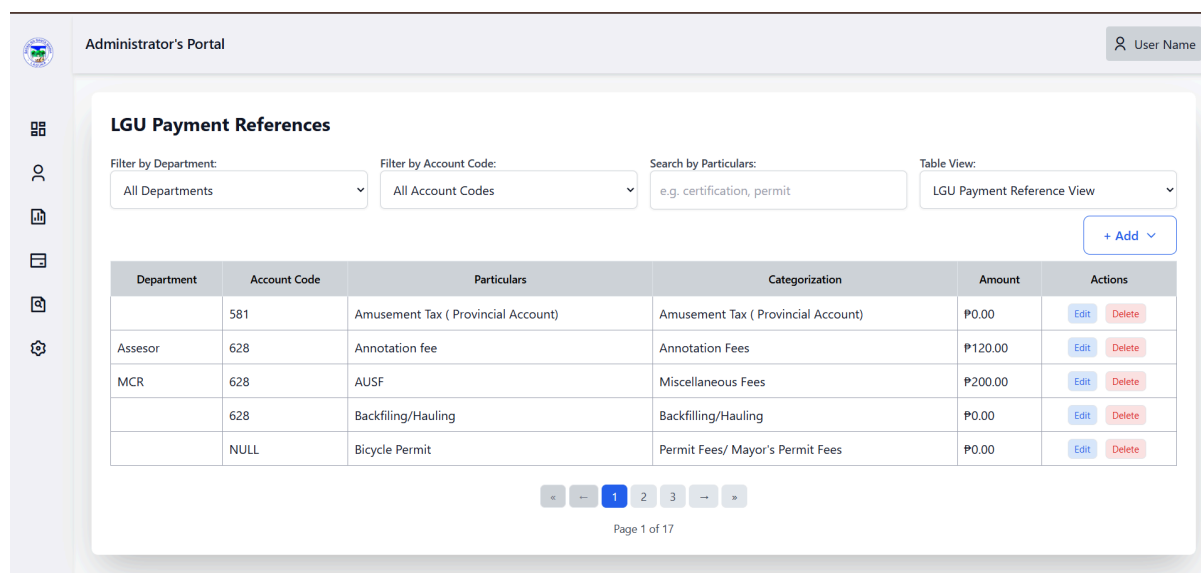

The **LGU Payment References section** allows the administrator to manage LGU Payment references in the system. From here, administrators can view, add, edit and delete payment references, account codes, departments, and payment categorizations.

a. Accessing the LGU Payment References Page

1. Click the **LGU Payment References icon** on the sidebar.

2. Once clicked, you will see the list of the LGU Payment References existing in the system.

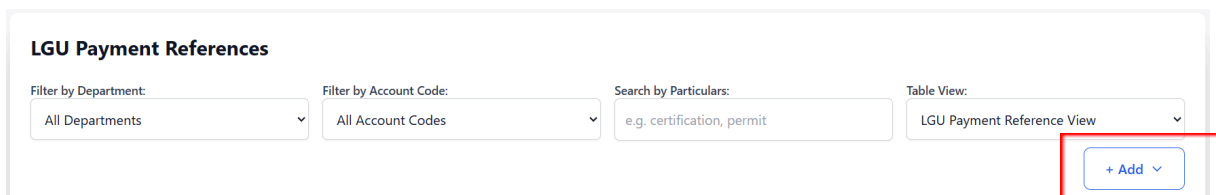

3. Above the table there are different filter/search options:

- a. **Filter by Department** - filters the table by displaying only the payment reference with the selected department (e.g. Assessor, MCR).
- b. **Filter by Account Code** - filters the table by displaying only the payment reference with the selected account code (e.g. 581, 628).
- c. **Search by Particulars** - a search bar for searching the particulars using the specific particular name
- d. **Table View** - filters the table to switch the content of the table to view the existing payment references, account codes, departments, and payment categorizations.

b. Adding a Payment Reference

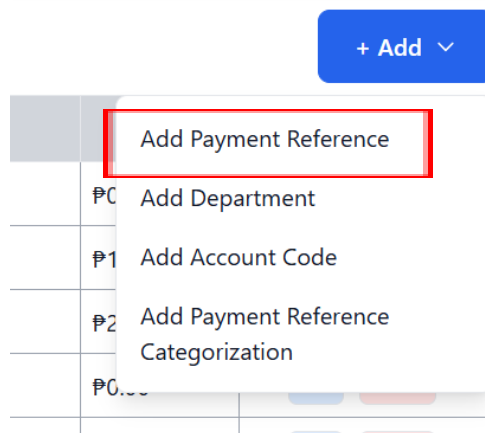

To add a payment reference, follow these steps:

1. In the LGU Payment References Page, click the **Add** button.

The screenshot shows the 'LGU Payment References' interface. It includes four filter sections: 'Filter by Department' (set to 'All Departments'), 'Filter by Account Code' (set to 'All Account Codes'), 'Search by Particulars' (with the text 'e.g. certification, permit'), and 'Table View' (set to 'LGU Payment Reference View'). A blue '+ Add' button with a dropdown arrow is located at the bottom right of the filter area and is highlighted with a red rectangular box.

2. Once clicked, a dropdown content will appear containing Add Payment Reference, Add Department, Add Account Code, Add Payment Categorization.
3. Select **Add Payment Reference**.

4. Once selected, a form for adding a payment reference will appear containing different input fields and dropdown selections.
 - o **Department** - you can choose a department from a selection of existing departments in the system
 - i. **Note:** If the department you want to select does not exist in the selection, you have to add that department in the system (see 4.4c. Adding a Department).

- **Account Code** - you can choose an account code from a selection of existing account codes that are in the system
 - i. **Note:** *If the account code you want to select does not exist in the selection, you have to add that account code in the system (see 4.4d. Adding an Account Code).*
- **Categorization** - you can choose a payment categorization that a payment reference will belong to from a selection of categorizations that exist in the system
 - i. **Note:** *If the payment categorization you want to select does not exist in the selection, you have to add that payment categorization in the system (see 4.4e. Adding a Payment Categorization).*
- **Particular** - name of the particular/payment reference
- **Amount** - amount of the payment reference
 - i. **Note:** *If the amount of the payment reference is not supposed to have a fixed amount, you can enter 0 in the amount input field to make the price of the payment reference have a custom amount when processing payments.*

5. If the particular/payment reference has no specific department or account code you can leave them blank.
6. Once the form is all filled up (**the department and account codes are optional**), click the save button to add the payment reference in the system.

c. Adding a Department

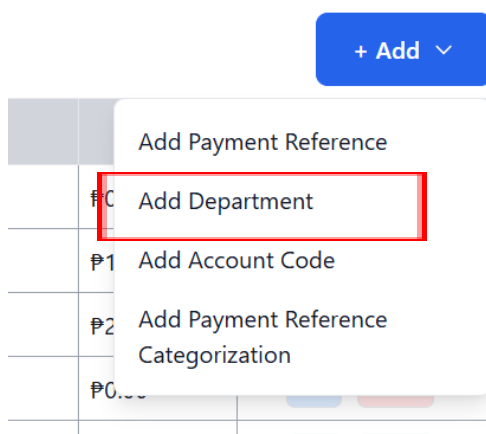

To add a department, follow these steps:

1. In the LGU Payment References Page, click the **Add** button.

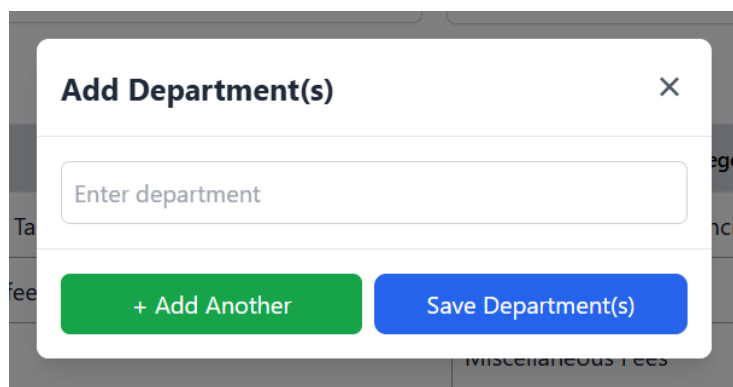

The screenshot shows the 'LGU Payment References' interface. It includes four filter/search fields: 'Filter by Department' (set to 'All Departments'), 'Filter by Account Code' (set to 'All Account Codes'), 'Search by Particulars' (with the example 'e.g. certification, permit'), and 'Table View' (set to 'LGU Payment Reference View'). A blue '+ Add' button with a dropdown arrow is located at the bottom right of the filter section and is highlighted with a red rectangular box.

2. Once clicked, a dropdown content will appear containing Add Payment Reference, Add Department, Add Account Code, Add Payment Categorization.
3. Select **Add Department..**

This screenshot shows the dropdown menu that appears after clicking the '+ Add' button. The menu contains four options: 'Add Payment Reference', 'Add Department', 'Add Account Code', and 'Add Payment Reference Categorization'. The 'Add Department' option is highlighted with a red rectangular box.

4. Once selected, an input field for adding a department will appear.

The screenshot shows a modal window titled 'Add Department(s)' with a close button (X) in the top right corner. Inside the modal, there is a text input field with the placeholder text 'Enter department'. Below the input field are two buttons: a green '+ Add Another' button and a blue 'Save Department(s)' button.

5. Enter the department name.

6. You can also add multiple departments at the same time. Click the “Add Another” button to generate a text field for a department.
7. Click the Save Department button to add the department to the system.

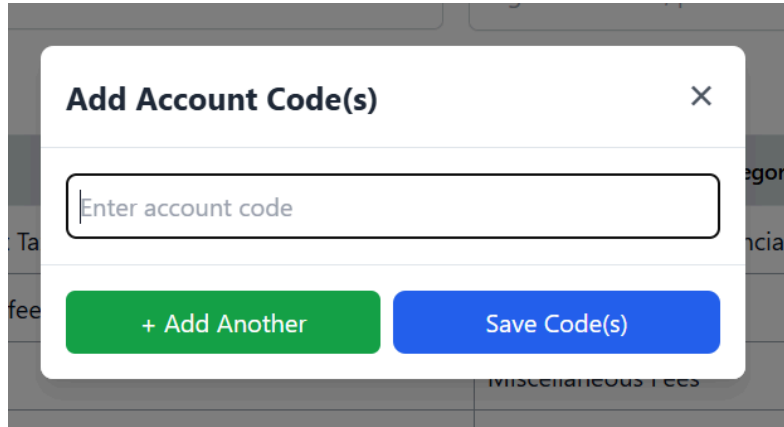

d. Adding an Account Code

To add an account code, follow these steps:

1. In the LGU Payment References Page, click the **Add** button.

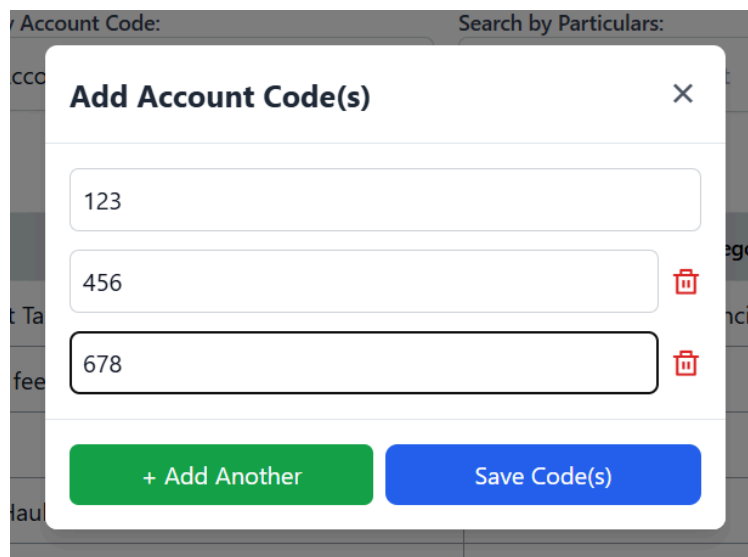

2. Once clicked, a dropdown content will appear containing Add Payment Reference, Add Department, Add Account Code, Add Payment Categorization.
3. Select **Add Account Code**.

4. Once selected, an input field for adding an account code will appear.

The screenshot shows a modal dialog box titled "Add Account Code(s)" with a close button (X) in the top right corner. Inside the dialog, there is a text input field with the placeholder text "Enter account code". Below the input field, there are two buttons: a green button labeled "+ Add Another" and a blue button labeled "Save Code(s)".

5. Enter the account code.
6. You can also add multiple account codes at the same time. Click the "Add Another" button to generate a text field for an account code.

The screenshot shows the same "Add Account Code(s)" dialog box, but now it contains three text input fields. The first field contains the number "123". The second field contains the number "456" and has a red trash can icon to its right. The third field contains the number "678" and also has a red trash can icon to its right. The "+ Add Another" and "Save Code(s)" buttons are still present at the bottom.

7. To delete an account code text field, click the trash can icon beside the text field.
8. Click the Save Code button to add the account code to the system.

e. Adding a Payment Categorization

To add a payment categorization, follow these steps:

1. In the LGU Payment References Page, click the **Add** button.

The screenshot shows the 'LGU Payment References' interface. It includes filter sections for 'Filter by Department' (set to 'All Departments'), 'Filter by Account Code' (set to 'All Account Codes'), and 'Search by Particulars' (with the example 'e.g. certification, permit'). The 'Table View' is set to 'LGU Payment Reference View'. A blue '+ Add' button with a dropdown arrow is highlighted with a red rectangular box.

2. Once clicked, a dropdown content will appear containing Add Payment Reference, Add Department, Add Account Code, Add Payment Categorization.
3. Select **Add Payment Categorization..**

This screenshot shows the dropdown menu that appears after clicking the '+ Add' button. The menu contains four options: 'Add Payment Reference', 'Add Department', 'Add Account Code', and 'Add Payment Reference Categorization'. The last option is highlighted with a red rectangular box.

4. Once selected, an input field for adding a payment categorization will appear.

The screenshot shows a modal window titled 'Add Categorization(s)' with a close button (X) in the top right corner. Inside the modal, there is a text input field with the placeholder text 'Enter categorization'. Below the input field are two buttons: a green '+ Add Another' button and a blue 'Save' button.

5. Enter the payment categorization name.

- You can also add multiple categorizations at the same time. Click the “Add Another” button to generate a text field for categorizations.

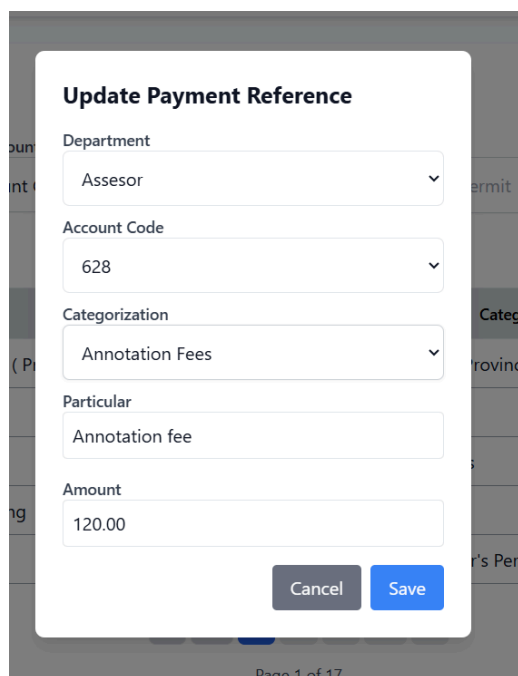

- To delete a categorization text field, click the trash can icon beside the text field.
- Click the Save button to add the categorization to the system.

f. Editing a Payment Reference

To edit a payment reference, follow these steps:

- In the LGU Payment References Page, select the “LGU Payment Reference View” in the Table View selection. Then the table for the payment references will appear.

- Select the payment reference you want to edit, and in the Actions column, click the Edit button in the corresponding row of the payment reference you want to edit.
- Once clicked, a form will appear containing selection and input fields that are pre-filled based on the current payment reference details.

4. From here, you can modify the selected department.
5. Once done editing, click the save button to commit the change in the department. If you do not wish to continue, click the cancel button.

i. Editing a Payment Reference Categorization

To edit a payment reference categorization, follow these steps:

1. In the LGU Payment References Page, select the “Payment Reference Categorization View” in the Table View selection. Then the table for the categorizations will appear.

The screenshot shows the 'LGU Payment References' interface. At the top, there are filters for 'Filter by Department' (set to 'All Departments'), 'Filter by Account Code' (set to 'All Account Codes'), and a search bar for 'Search by Particulars' (containing 'e.g. certification, permit'). On the right, the 'Table View' dropdown menu is open, showing options: 'LGU Payment Reference View', 'LGU Payment Reference View' (highlighted), 'Account Codes View', 'Departments View', and 'Payment Reference Categorization View' (highlighted with a red box). Below the filters, a table is visible with columns: Department, Account Code, Particulars, and Categorization. The first row shows 'SR1' under Account Code and 'Amusement Tax (Provincial Account)' under Particulars and Categorization.

2. Select the categorization you want to edit, and in the Actions column, click the Edit button in the corresponding row of the categorization you want to edit.
3. Once clicked, an input field will appear that is pre-filled based on the current categorization.

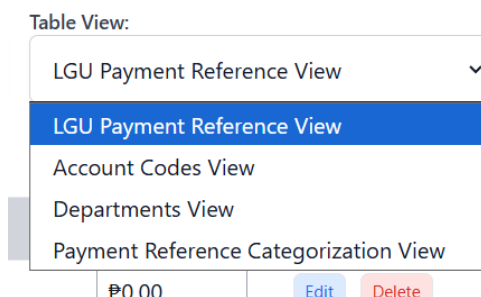

The screenshot shows a modal window titled 'Edit Categorization'. It contains a text input field with the pre-filled text 'Application for Marriage'. Below the input field are two buttons: 'Cancel' and 'Save'.

4. From here, you can modify the selected categorization.
5. Once done editing, click the save button to commit the change in the categorization. If you do not wish to continue, click the cancel button.

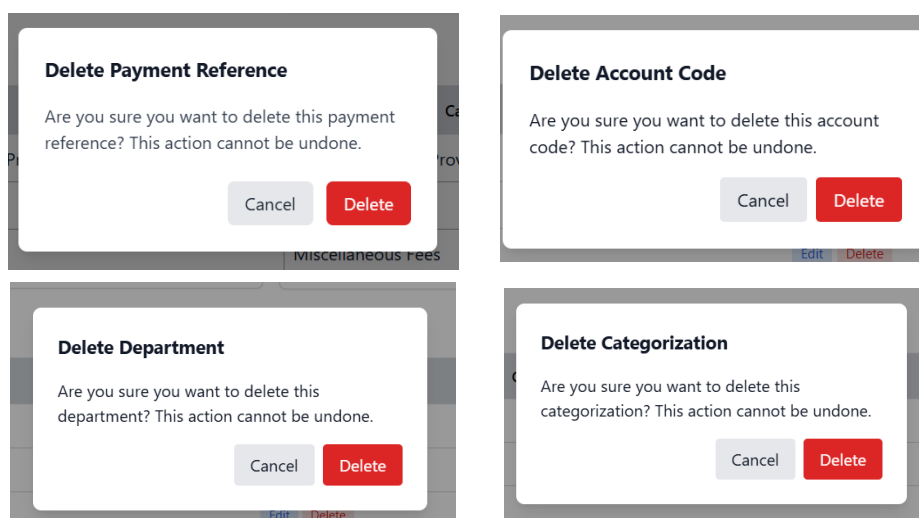

j. Deleting an LGU Payment Reference / Account Code / Department / Categorization

To delete an LGU payment reference/account code/department/categorization, follow these steps:

1. In the LGU Payment References Page, select one of the classifications in the Table View selection based on what you will delete.
 - a. Select **LGU Payment Reference View** if you wish to delete a payment reference.
 - b. Select **Account Codes View** if you wish to delete an account code.
 - c. Select **Departments View** if you wish to delete a department.
 - d. Select **Payment Reference Categorization View** if you wish to delete a payment reference categorization.

2. Once you have selected a classification, in the Actions column, click on the delete button on the corresponding row you wish to delete.
3. Once clicked, a delete confirmation message will appear, asking you to confirm the deletion.

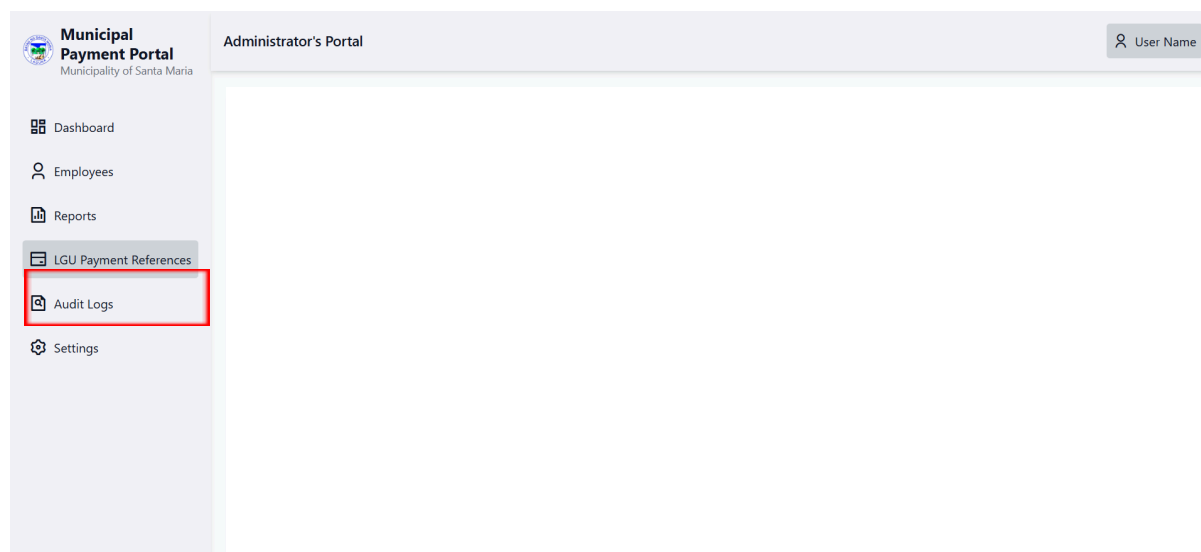

4. If you wish to delete a payment reference, account code, department, or categorization, click on the delete button to confirm the deletion. If not, click on the cancel button.

4.5. AUDIT LOGS

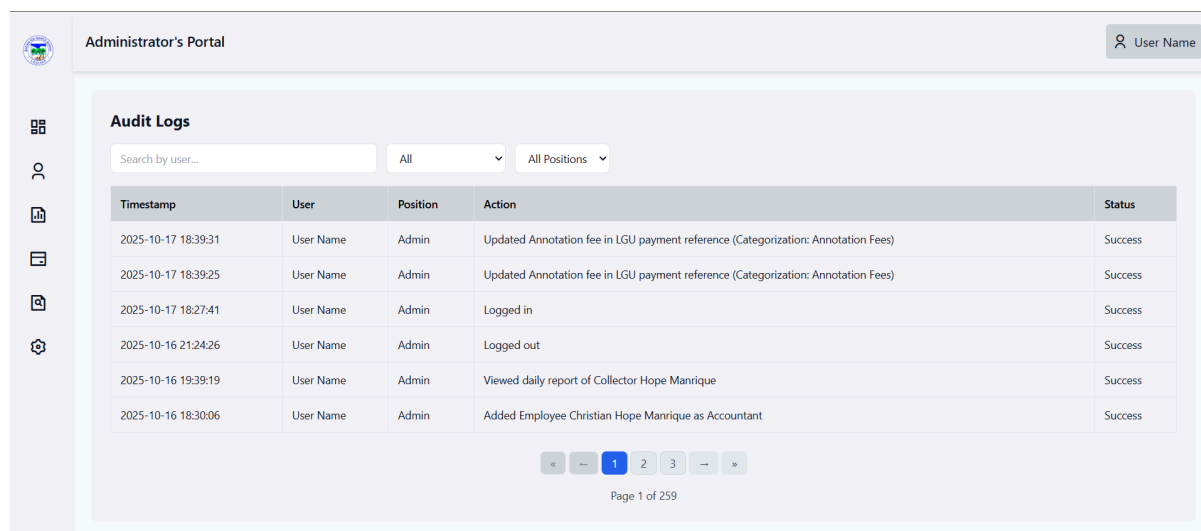

The **Audit Logs** section records and displays all system activities related to financial transactions and report submissions. It enables administrators to monitor actions performed by collectors, treasurers, and other authorized users, ensuring transparency and accountability within the system.

a. Accessing the Audit Logs

1. Click the **Audit Logs** icon on the sidebar.

2. Once clicked, you will see a table containing the actions that have been performed in the system.

b. Viewing/Filtering the Audit Logs

- In the Audit Logs table, this consists of the columns for:
 - Timestamp** - time and date of when the action is performed
 - User** - name of the employee who performed the action
 - Position** - position of the employee (admin, collector, treasurer, accountant) who performed the action
 - Action** - details of the action of the employee
 - Status** - determines whether the action is successful or not
- Above the Audit Logs table, there are filter options for the timeframe and positions

- a. **All Positions** - filters the table by displaying the audit logs recorded unrestricted by employee position

- b. **Admin** - filters the table by displaying the audit logs recorded with the employee position of admin.
- c. **Collector** - filters the table by displaying the audit logs recorded with the employee position of collector.
- d. **Treasurer** - filters the table by displaying the audit logs recorded with the employee position of treasurer.
- e. **Accountant** - filters the table by displaying the audit logs recorded with the employee position of accountant.

 You can combine the usage of the search bar, timeframe, and position filters to refine the filtering of the Audit Logs table.

4.6 Settings Page

The **Settings** page allows the administrator to manage their account preferences and security settings. From here, users can update their password, adjust session timeout options, control how long the system stays active when idle, manage the organization information, and backup and restore of the system's data.

a. Accessing the Settings Page

1. Click the **Settings** icon on the sidebar.

2. Once opened, in here you will see the sections like:
 - a. **Profile Settings** - where you can edit your name, email, phone number, and address
 - b. **Account Credentials** - where you can change your email address and password
 - c. **Session Timeout Settings** - where you can determine how long the system stays active when idle
 - d. **Organization Information** - where you can edit the organization's name and logo
 - e. **Backup and Restore** - where you can download a backup of the system's database and restore it when needed

4. After entering your updated information, click **Save** to apply the changes.

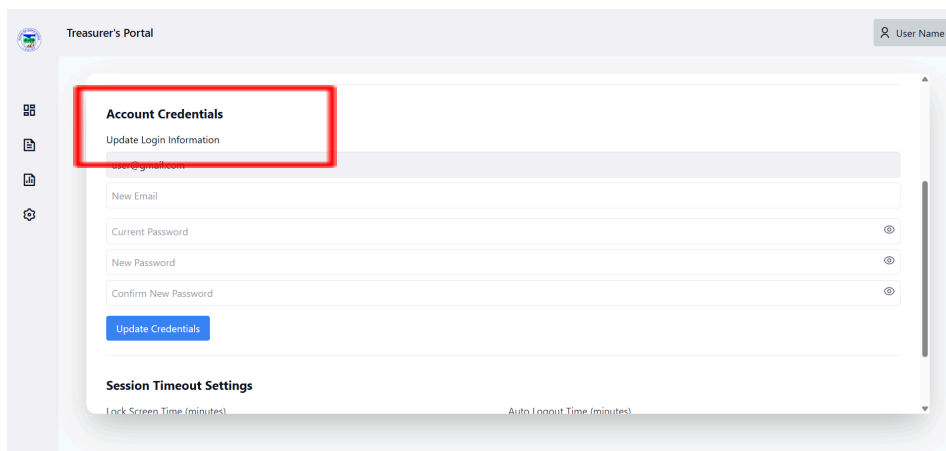

c. Updating Your Account Credentials

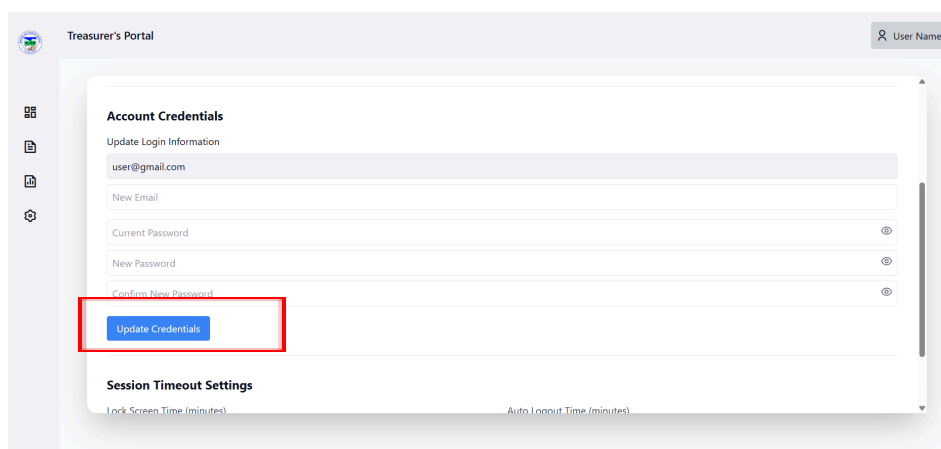

To maintain security, it's recommended to update your password regularly.

Follow these steps:

1. Go to the **Settings** page.
2. Scroll until you see **“Account Credentials”**

3. Enter your **current password**.
4. Type your **new password**, then confirm it in the **Confirm Password** field.
5. Click **Update Credentials** to apply the update.

d. Session Timeout Settings

To change the logout duration and lockscreen duration, you can scroll until you see the session timeout settings

💡 Shorter timeouts increase security, while longer ones are more convenient during long tasks.

i. Lock Screen Time

The **Lock Screen feature** lets you secure your session temporarily without logging out completely. This feature allows you to lock your screen if the system does not detect any user activity in a selected period of time.

To use it:

1. Go to the Session Timeout Settings at the bottom of the “Settings Section”.
2. Click the lockscreen dropdown and choose your desired time based on your preference (e.g., 1, 5, or 15 minutes).
3. You can also select “Never” to turn off the lock screen feature.

ii. Auto-Logout Time

For your protection, the system automatically logs you out after being inactive for a certain time — this is called an **Auto-log-out Time**.

- If you're away from your computer, the system will log you out automatically to prevent unauthorized access.
- You can **change the auto-logout duration** in the **Settings** section based on your preference.

To change this:

- Go to the Session Timeout Settings at the bottom of the "Settings Section".
- Click the **Auto-Logout Time** and choose your desired time based on your preference (e.g., 5, 10, or 30 minutes).
- You can also select "Never" to turn off the auto-logout feature.

e. Organization Information Settings

This is a feature that is only available for administrators. From here, you can change the organization name and logo that will be displayed throughout the system in all user roles. To find the organization information settings, in the settings page, scroll down until you see the section for organization information.

The screenshot shows the 'Administrator's Portal' interface. On the left is a sidebar with icons for various settings. The main content area has a scrollable list of settings. The 'Session Timeout Settings' section is visible at the top, with 'Lock Screen Time (minutes)' and 'Auto Logout Time (minutes)' both set to 'Never'. Below this, the 'Organization Information' section is highlighted with a red rectangular box. It contains an 'Organization Name' input field with the text 'Municipality of Santa Maria' and an 'Organization Logo' section with a 'Choose File' button and the text 'No file chosen'. A blue 'Save' button is located at the bottom right of this section. Below the 'Organization Information' section, the 'Backup & Restore' section is partially visible.

i. Updating Organization Name

1. To change the organization name, you can edit the input value of the organization name to your desired name.
2. Once you are done, click the save button to save the changes.

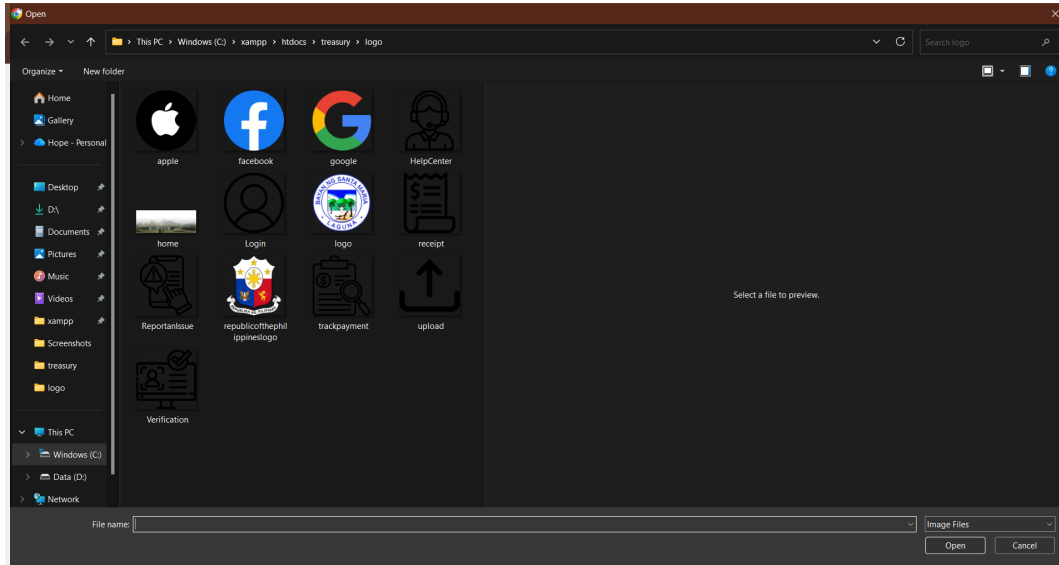

This is a close-up view of the 'Organization Information' section. It shows the 'Organization Name' input field containing 'Municipality of Santa Maria' and the 'Organization Logo' section with a 'Choose File' button and 'No file chosen' text. A red rectangular box highlights the blue 'Save' button at the bottom right of the section.

ii. Updating Organization Logo

1. To change the organization name, you can click the choose file button under the organization logo.

This is another close-up view of the 'Organization Information' section, identical to the previous one. It shows the 'Organization Name' input field with 'Municipality of Santa Maria' and the 'Organization Logo' section with a 'Choose File' button and 'No file chosen' text. A red rectangular box highlights the blue 'Save' button at the bottom right of the section.

- Once clicked, you will be directed to the file manager of the device you are using.

- From here, choose your desired organization logo, and click open.

- Once clicked, you will be redirected back to the payment portal. Click the save button to save the changes to the organization logo.

f. Backup and Restore

This is a feature that is only available for administrators. From here, you can download a backup file of the system's database and restore it when needed. To find the backup and restore settings, in the settings page, scroll down until you see the section for backup and restore.

i. Downloading a Backup File

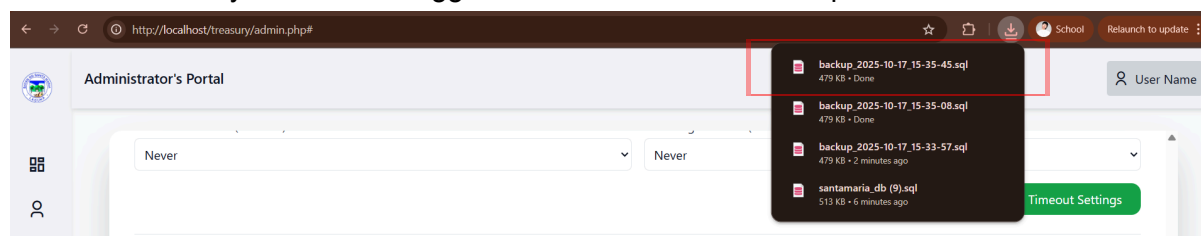

1. To download a backup file of the system's database, click the backup data button.

Backup & Restore

Backup will generate a copy of the database. Restore will overwrite current data with selected file.

2. Wait until your browser triggers a download of the backup file.

3. Once triggered, you have successfully downloaded the backup file of the system's database.

ii. Restoring the System's Data

1. To perform a restoration of the system's database, click the restore data button.

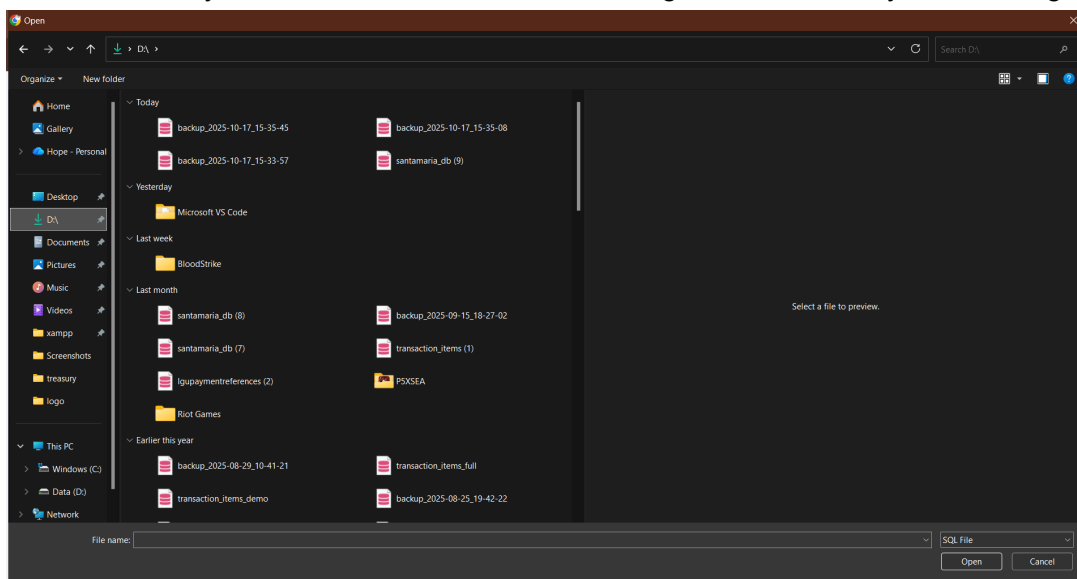

Backup & Restore

Backup Data

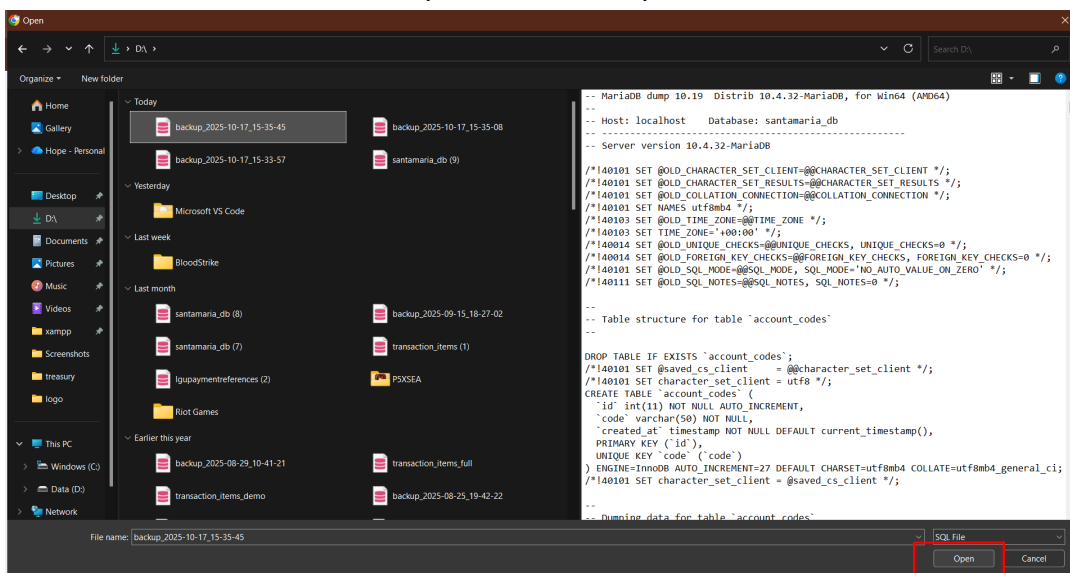

Restore Data

Backup will generate a copy of the database. Restore will overwrite current data with selected file.

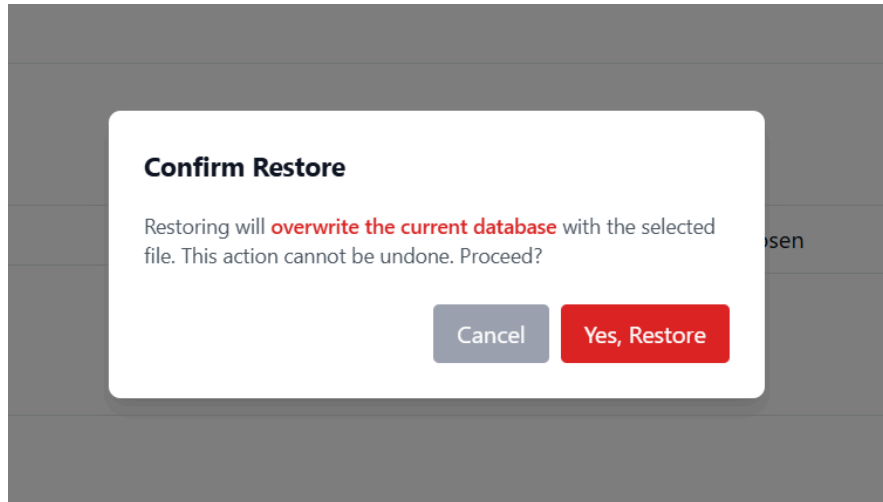

2. Once clicked, you will be directed to the file manager of the device you are using.

3. From here, find the latest backup file, and click open.

4. Once clicked, you will be redirected back to the payment portal. Upon redirecting, a confirmation message will appear, asking for confirmation of the restoration of data.

5. If you want to continue the restoration, click the “Yes, Restore” button. If not, click cancel.

💡 *The administrator should create database backups daily and maintain weekly and monthly copies for redundancy and audit purposes.*
